BEFORE THE ARKANSAS DEPARTMENT OF EDUCATION STATE BOARD OF EDUCATION

April 13, 2017 10:00 A.M.

APPEARANCES

BOARD MEMBERS:

Ms. Mireya Reith Chairman
Dr. Jay Barth Vice Chairman
Ms. Diane Zook Board Member
Mr. Joe Black Board Member
Ms. Charisse Dean Board Member
Ms. Ouida Newton Board Member
Dr. Fitzgerald Hill Board Member

ALSO APPEARING:

Mr. Johnny Key

Ms. Meghan Ables

Commissioner of Education
Teacher of the Year/
Non-Voting Member

ADE LEGAL COUNSEL:

Ms. Lori Freno ADE General Counsel

Ms. Courtney Salas-Ford ADE Deputy General Counsel

Ms. Jennifer Davis ADE Staff Attorney

ADE Auditorium #4 Capitol Mall Little Rock, AR

4 PROCEEDINGS 1 2 RESOLUTION - MONTH OF THE MILITARY CHILD A-1: MR. KAMINAR: Madam Chair, Commissioner Key, let 3 me go ahead and take just a moment to read the 4 5 Resolution and then present it to you for approval and signature: 6 7 WHEREAS, More than 10,000 Arkansans 8 exhibit profound courage and selflessness 9 by serving in the Armed Forces; and WHEREAS, The school age children of 10 11 these families attend public schools in 12 the state of Arkansas; and WHEREAS, Military families live and 13 work in every county in the state of 14 15 Arkansas; and WHEREAS, Military children face 16 17 unique challenges related to military 18 transitions and parental deployment; and 19 WHEREAS, Military children and their 20 families serve as an essential source of 21 support and encouragement for armed 22 service members; and 23 WHEREAS, Military children should be 24 acknowledged for the sacrifices they make 25 and celebrated for the courage they display

	5
1	as the children of our nation's armed
2	service members; and
3	WHEREAS, The Arkansas State Council
4	for the Interstate Compact on Educational
5	Opportunities for Military Children, the
6	Department of Defense, and various other
7	organizations nationwide recognize April
8	as the Month of the Military Child;
9	NOW, THEREFORE, BE IT RESOLVED THAT
10	The Arkansas State Board of Education
11	recognizes and salutes military children by
12	recognizing April 2017 as the Month of the
13	Military Child.
14	Madam Chair, Commissioner Key, I have the
15	Resolution right here.
16	CHAIRPERSON REITH: Do you have a pen?
17	MR. KAMINAR: I do.
18	CHAIRPERSON REITH: Thank you. Perfect. Thank
19	you.
20	MS. COFFMAN: We need a motion.
21	CHAIRPERSON REITH: Yes.
22	And if I could kindly ask the Board for a motion
23	in regards to this Resolution?
24	MS. ZOOK: So moved.
25	CHAIRPERSON REITH: Do I have a second?

	6
1	MS. DEAN: Second.
2	CHAIRPERSON REITH: Motion made by Ms. Zook,
3	seconded by Ms. Dean. All in favor?
4	(UNANIMOUS CHORUS OF AYES)
5	CHAIRPERSON REITH: Any opposed?
6	Motion carries unanimously. Thank you so much.
7	And if we could give applause as well to our
8	families and to their children.
9	[APPLAUSE]
10	MR. KAMINAR: Thank you, Madam Chair.
11	CHAIRPERSON REITH: Thank you so much. We
12	appreciate the opportunity.
13	MR. KAMINAR: Thank you, Madam Chair,
14	Commissioner Key. And, Military Families, thank you
15	for taking time out of your schedules today to come
16	and be with us.
17	CHAIRPERSON REITH: Thank you again. Thank you
18	to all. And I hope you're able to enjoy the rest of
19	your day and hopefully have some family time
20	together. Again, thank you, not just for your
21	service but for what you represent for our schools
22	and our country.
23	And so in order to give the families a moment to
24	transition out, I'm wondering if we should go ahead
25	and take just a very brief break right now or how

are our colleagues feeling this morning?

Then we'll just give them momentarily a moment

to move as we move on with the action agenda item.

A-2: CONSIDERATION OF ADE RECOMMENDATION OF PROBATIONARY
STATUS FOR LEE COUNTY HIGH SCHOOL AND LEE COUNTY SCHOOL
DISTRICT

CHAIRPERSON REITH: With that, I'll go ahead and ask Mr. Morris to come forward as we move on to Action Agenda Item A-2 and the Consideration of the Arkansas Department of Education's Recommendation of Probationary Status for Lee County High School and Lee County School District. Mr. Morris, you are recognized.

MR. MORRIS: Good morning. Willie Morris,
Program Manager for the Standards Monitoring Unit.

As you recall, we were here before to talk about the situation in Lee County and at that time there were several issues that hadn't been resolved at Lee County. Since then, Lee County has resolved most of the issues that we found when we went to monitor in December. The only two remaining items that we had left for Lee County was the fact that they did not employ a counselor the first semester and that's a potential probationary issue; the other issue that they had left was the fact that they did not teach

all of the 38 units. They still had outstanding the fact that they did not teach a half-unit of drama and half-unit of social studies at the time that we sent this in to you. Since then, they have resolved the drama issue but the half-unit of social studies is still outstanding. They also have employed or transitioned one of their teachers into -- it's my understanding that they moved a teacher, English teacher, into the counselor's position the second semester; however, that did not resolve the issue of not having a counselor first semester.

So we're here asking for your consideration for probationary consideration for Lee County School District and Lee County High School.

CHAIRPERSON REITH: Thank you. And so with that I do have a couple of public comment items, but I also would entertain questions from the Board prior to public comment. Any questions for Mr. Morris?

Okay. Then with that I do need a motion from the Board in regards to hearing public comment, and we do have two individuals signed up. I believe this says a Mr. Walton and Mr. Williams to speak. If the Board so wishes to hear public comment we do need a motion to do so.

MS. DEAN: I move to hear public comment.

want to point out that, you know, last month we were

25

accused of being dysfunctional. Two of us are here of the dysfunctional board members. So we're working to solve our problem in Lee County, local issues.

And so we do have issues with even the credits, and I think with working with Mr. Hughes that we've solved our credit issue. And I know we went through the compliance part of it and it showed that we're sure that we're in compliance with the credits first semester, because I know I checked off on all those and it asked those questions. So I think we're offering all of the 38 units. It ought to be just looked at a little closer.

And then as far as the counselor, we could've hired a counselor first semester; we just didn't do it because of other problems. And I think that's basically mostly a superintendent problem, our not being able to find a counselor.

So that's where we stand now. And do you have a question of me before I turn it over to Mr. Walton?

CHAIRPERSON REITH: Since this is public comment we'll go ahead and hear from Mr. Walton --

MR. WILLIAMS: Okay.

CHAIRPERSON REITH: -- and then we'll open it up to questions or conversation from the Board. Thank you, Mr. Williams.

Mr. Walton, you're recognized.

23

24

25

MR. WALTON: Yes. Patrick Walton, Lee County School District.

The question was asked as it relates to the counselor. Now we have tried to hire a counselor; we went through all of the procedures to hire a The problem that we had as a board -- and counselor. I think Mr. Williams -- I don't understand why he didn't want to go in detail about it, but we had a -we have a certified English teacher, okay, and we didn't want to move -- for the kids' sake, we didn't want to move -- we didn't see the need to move a certified teacher out of the classroom to put them in the counselor position. We have retired teachers that could have -- retired counselors that could have filled those positions. When they came for the audit, the standards audit, it was asked I believe by Dr. Wilde to the superintendent and the high school principal why did they not put a substitute in the counselor position. As the audit says, they failed to answer the question. Okay. We could've solved this and wouldn't be here.

We don't have a problem in Lee County, we really don't. We have a communication problem with the board and the superintendent. I work federal -- I

work state and I work federal, but across the board every state organization I ever -- I know about, any time a boss gives a directive to a superintendent --I mean, to a subordinate and they refuse to do it or tell you they're not going to do it, it's called insubordination. Okay. Now I can say as a board we failed to act and do what we should have done when we was -- when insubordination took place, okay, as far as back to the counselor position. Well, we're still I wrote some notes down; I don't want on this now. to go off -- get off course or whatever. English class was left -- had been left open and it's left open now to Virtual Arkansas. Some kids learn at -- all kids learn at different levels. take a kid -- I'm not saying that because you're in the Delta you can't learn. Okay. We have people that are successful that comes from Lee County.

Lee County does a good job at what we do. Okay.

But we as a board are just trying to govern; we're

not trying to get involved in the day-to-day

operations. We have our jobs, many different jobs

and things of that nature, but order is just order.

And we tried to avoid this, but I believe that it's

just a tactic -- a tactic for the current

administration for this to happen. Okay. And that's

just -- that's plain and simple. There's no other way I can say it. I mean, if we have to be put on probation by Standards -- by the Board, I mean, then we have to do that and we go and correct it. As a board, we have done what we need to do. If we have a superintendent, as any board, that's not doing what's best for the kids -- because after all, everybody in the district is there for the kids -- okay -- then we find someone else to do it, pointblank, and we've done that. Not to get off the counselor, but we've done that. On June 30th, we've already said that the superintendent's contract won't be renewed. Okay.

I'm trying to stay focused on the standards issue. Maybe, you know, next year -- I know we can, we can get this taken care of. I'm asking that you not put us on probation.

One other thing -- I wrote my notes and I want to stick to my notes -- we gave a directive to the superintendent to get this done after Standards came down, "Get this taken care of." We said, "Put a substitute" -- she was given a directive. Okay. The superintendent was given a directive to give -- to put a substitute in that position; no avail. Okay. We -- going back to what I said previously, we moved an English teacher out that was needed.

2

3

7

8

9

10

11

12

13

14

15

16

17

18

19

20

21

22

23

24

25

And I'm going to tell you something else that happened from there, and then I won't go too long. We had kids that was ready for graduation taking a course -- was it transitional English -- and it wasn't even counting towards graduation. Now those kids are double-blocked, okay, taking English just to graduate one semester.

Okay. What we have in Lee County is a management problem; that's what we have. And this board now, it's not that we're a problem board; it's that we believe in accountability. And the lack of -- the board previous, before us, was just a rubberstamp board, and that's not what we have right I think Mr. -- Attorney Lewellen told you that he had over 200 signatures on a petition. That don't represent Lee County. Okay. Marianna has 3,000 people in it, so that's just 200 people. Even with the motion that was -- the legal matter that took place, the injunction, I'm not going to call names but the person that filed the injunction -- this is my second term on the school board. Okay. person that filed the injunction is the person that I beat in the election. The first year I was appointed, the second year I was beat. mean, the second year I won over the person that

2

14

15

16

17

18

19

20

21

22

23

24

25

filed the injunction. So it's a lot of personal things going on. But what we need to stick -- what the board is trying to do is what every board should be doing: oversight, okay, accountability. And if I was part of the audit or had anything to do with the audit that came down, even the last audit that came down, that came out like two weeks ago, I'd be trying to get rid of the board too. I would be saying negative things about the board. Take a look at it. It's a lot of things that's going on in Lee County that's going to go beyond the board. I'm talking about all monies sent to the district. All monies sent to the district, okay, is for the children, whether it's federal funds -- even funds that's sent to the district to pay salaries, okay, that's for -it's for the children because the teachers are there for the children. Everybody should be there for the children. We owe the taxpayers accountability. Okay. We owe the children accountability. That's what we're there for, not the personal gain.

CHAIRPERSON REITH: Thank you, Mr. Walton.

Normally we give three minutes for this, but we did

want to give you an opportunity. And there may be

some additional opportunity for following up,

depending on the questions on the Board.

MR. WALTON: I have one other thing to say that was said --

1

23

24

25

CHAIRPERSON REITH: You could make a final comment.

MR. WALTON: And I'll make it quick.

CHAIRPERSON REITH: One final comment.

MR. WALTON: We had a situation on the board where we hired a basketball coach. Okay. The basketball coach was hired as an interim coach. Ι made the mistake of amending the superintendent's recommendation. Okay. Can't do that. I went back and asked the superintendent, "Have we made a mistake?" Because what we did, we altered the stipend; we cut it in half because we were under the impression that, hey, look, if he started at the If you move into beginning of the year you pro-rate. an apartment in the middle of the month you don't get -- you don't pay the whole rent. Okay. So we thought we could do that. Now school law is much different and everything else. Okay. So I was told by somebody that I love and respect, "Hey, look, you was wrong by amending the recommendation of the superintendent." So I went back because, regardless of how I feel about anybody as a person, business is business and right is right and wrong is wrong.

1	we tried to make it right by asking the
2	superintendent to bring it back. Didn't do so. But
3	yet, they stand in front of you last meeting and tell
4	you that we did it. They never they failed to
5	tell you that we tried to correct it. So it's bigger
6	than what it appears now. Thank you.
7	CHAIRPERSON REITH: Thank you, Mr. Walton.
8	Well, it seems the opportunity for us, Board, is
9	in regards specifically to action on probation. But
10	I did want to entertain if there was any questions or
11	broader discussion that any board colleagues wanted
12	to bring up in regards to the matter of Lee County or
13	if anyone from the Department would like to elaborate
14	on sort of what happens from here?
15	COMMISSIONER: That's
16	CHAIRPERSON REITH: Commissioner.
17	COMMISSIONER KEY: That's the opening. I think
18	if Ms. Freno or Ms. Barnes or Mr. Harvey
19	CHAIRPERSON REITH: Thank you, Mr. Walton.
20	COMMISSIONER KEY: could come and just lay
21	out I mean, a copy of the statute is in your
22	packet. And so if you want a legal or a Standards
23	opinion of next steps and path forward they can
24	address those for you.
25	CHAIRPERSON REITH: Thank you. If both of you

could speak we would appreciate it.

MR. HARVEY: Elbert Harvey, Public School Accountability.

Yes, from the Standards standpoint we've made a recommendation that they be placed on probation for the two issues: one, for not maintaining a counselor to maintain the ratio at the district level, which is the district probationary offense; the second offense would be not teaching the required 38 courses, which was documented by our onsite visit, and that would be a probationary violation at a building level, specifically the high school. So we'd be asking the Board to place the district on probation for the counselor and the building, the high school, on probation for not teaching the required 38.

CHAIRPERSON REITH: Thank you. And then from a legal perspective, Ms. Freno?

MS. FRENO: Madam Chair, Lori Freno, Arkansas
Department of Education.

The school district effectively has already been placed on probationary status because they did not correct within the timeframe that they had. The school district had the opportunity to file an appeal of the finding of violation of Standards for Accreditation but did not do so. So at this point it

is just for the State Board to confirm if they feel there's evidence that there was a probationary violation, and at that point it could take the actions, or none of the actions, set forth in the law.

CHAIRPERSON REITH: Okay.

MS. ZOOK: Can you --

CHAIRPERSON REITH: Yes, Ms. Zook.

MS. ZOOK: Can you give us the reference in the law or is that part of the attachment link?

MS. FRENO: That, Ms. Zook, is a part of the package that you have received.

MS. ZOOK: Okay.

MS. FRENO: And that is Section 6-15-207. If you look at Section A of that it discusses what happens in the first year that a school district is placed in probationary status. And the State Board does not have to take any action. The State Board may take action; it does not have to take any. If you go to B that refers to what the State Board shall do, must do in the second year of a probationary status. We're not there yet, so still there is that level -- there's the discretion as provided in A. And then if you look to see, those are things that the State Board can do --

	20
1	MS. ZOOK: Okay.
2	MS. FRENO: if it chooses to do so.
3	MS. ZOOK: And it's my understanding that the
4	recommendation is that we vote to either put them in
5	probation I mean, affirm that they're in
6	probation, or what is the is there another option
7	or is that it?
8	MS. FRENO: Well, if this board finds that there
9	was sufficient evidence presented that they that
10	the school district did violate the Standards for
11	Accreditation it's for this board to uphold the
12	probationary status.
13	MS. ZOOK: Okay. Thank you.
14	MS. FRENO: Yes.
15	MS. ZOOK: That helps.
16	CHAIRPERSON REITH: And, Ms. Freno, before you
17	walk away, is the Department at this time
18	recommending any of these additional actions be taken
19	beyond affirmation of the probationary status?
20	MS. FRENO: No, Madam Chair, it is not.
21	CHAIRPERSON REITH: Thank you, Ms. Freno.
22	So with that, yes, Dr. Barth.
23	DR. BARTH: Just a question for Mr. Harvey. In
24	recent years was there one previous time when the
25	district was on probation for Standards for

	21
1	Accreditation?
2	MR. HARVEY: I would have to go back and pull
3	documentation to verify. But from my recollection,
4	yes, they have been in probation status before.
5	DR. BARTH: And probably three years ago, two or
6	three years ago, is that the
7	MR. HARVEY: Yes. That would've been within the
8	last three to four years.
9	DR. BARTH: Okay. Thanks.
10	CHAIRPERSON REITH: Yes, Ms. Newton.
11	MS. FRENO: And, Dr. Barth, if I may, just for
12	clarification, the Section B, the second year and
13	maybe I'm reading into your question but that's
14	only consecutive years.
15	DR. BARTH: Yeah, understood. I was just trying
16	to get some kind of broader history of issues related
17	to Standards for Accreditation in this district, and
18	I recognize it's not consecutive years. But there is
19	some there has been some pattern of challenges in
20	this arena, not the same issues but Standards for
21	Accreditation issues; right?
22	MS. FRENO: I just wanted to make sure that
23	to clarify that, and obviously it didn't need to be
24	clarified. Thank you.
25	DR. BARTH: Thank you. I appreciate it.

1	CHAIRPERSON REITH: And I oh, sorry. Yes,
2	Ms. Newton and then I'll have a question. No, please
3	go ahead, Ms. Newton.
4	MS. NEWTON: My question was for Ms. Freno. I
5	know this year it's a "may," but then once we hit the
6	second year it becomes a "shall." What would the
7	date of the second year, when would that start?
8	Would that start at this time next year or would that
9	be the next school year or
10	MS. FRENO: That's a Mr. Harvey question.
11	MS. NEWTON: Oh, okay. Sorry.
12	MR. HARVEY: That would be something we would
13	need a little deeper research. Typically, it has
14	been one cycle of a school year and it's typically
15	the same probationary violation. But it could be
16	as we look at the standard, if they're in violation
17	of the standard again at the beginning of the school
18	year next year, they could be found in violation for
19	consecutive violations.
20	MS. NEWTON: So at the beginning of the school
21	year, if we still had problems in either one of these
22	two areas, then we would move from the "may" to the
23	"shall" of the of those of that list?
24	MR. HARVEY: Yes, ma'am. It's very possible
25	that it could move into that area. And it would be

2

3

4

5

6

7

8

9

10

11

12

13

14

15

16

17

18

19

20

21

22

23

24

25

not specifically -- it would be a curriculum issue, which would be under the standards outlined as curriculum; not specific classes, but the overall 38 required or within the hiring of personnel, which is an area where the violation would be.

MS. NEWTON: So it wouldn't have to be specifically a counselor; it could be any --

MR. HARVEY: Yes, ma'am. It could be a superintendent, it could be a principal, it could be any of those denoted within that section -- school nurse, librarian. Yes, ma'am.

CHAIRPERSON REITH: Thank you. I quess if I may ask a question; then, Ms. Zook, I'll recognize you. I am trying to get at the tensions here, and I apologize. I know I missed some of our meeting last month where this was first addressed due to my And for me it's the question here -- it illness. seems like the tension of the role of who might be at fault, board versus superintendent. Or I guess I'm trying to grapple with the testimony that we've heard here today. But the evidence that this actually happened, that the failure in regards to both a counselor and the specific course -- courses, that remains the same; correct? And so I guess I just wonder if it affects roles or if the information that

1	we've been given here today is more in the realm of
2	the other types of actions that we might take. But
3	the evidence remains the same; I mean, there's no way
4	around it, correct? I mean, at least as the
5	Department has found or been able to validate these
6	positions and those courses were not
7	MR. HARVEY: Yes. Based upon the review, at the
8	time of the review, that's the items that we found.
9	And there was not a correction submitted inside the
10	window to offer that opportunity to verify that we
11	may have viewed something incorrectly.
12	CHAIRPERSON REITH: Okay. Regardless of who may
13	and I know right now there seems to be some
14	dissention in that, regardless of who may be at fault
15	in regards to this; right?
16	MR. HARVEY: Yes, ma'am.
17	CHAIRPERSON REITH: Okay.
18	MR. HARVEY: We just made a determination that
19	these were the facts upon the visit and they are
20	probationary violations.
21	CHAIRPERSON REITH: Okay. Thank you.
22	Yes, Ms. Zook.
23	MS. ZOOK: When you say "next year," are you
24	talking about the October 1 date or are you talking
25	about when school starts? I guess my concern is

obviously a district having to be in probation, but
my concern also are students who went an entire year
without the assistance of a counselor and no
opportunity for that social studies. So, you know,
while the adults are going back and forth, the kids
are lost and we've lost sight of the kids.
Regardless of when people say "I'm doing it for the
kids," the fact is the kids are the ones that didn't
have the counselor and didn't have opportunity for
that .5 credit in social studies. So I guess my real
question is that -- is it the October 1st or is it
the beginning of the year?

MS. BARNES: Good morning. Annette Barnes,
Assistant Commissioner, Public School Accountability.

There are a number of factors that are at play here, and we certainly don't want to confuse any of it. It has been verified that the infractions occurred. They did not correct those within the timelines that are identified within the document that governs the accreditation of public schools and school districts. One of those, in particular, has to do with being district probation. They have timelines of being corrected by the first day of the next academic semester. It wasn't corrected by the next day of the academic semester. The ADE has made

the recommendation for the probations. The Board has basically voted on that. And so it is advisable that in order to address academic natures that they should -- the district must have these corrected within that timeframe; otherwise, at that point it becomes failure to correct a probationary violation and it's another -- it's the second year, two consecutive years. It could go farther than that.

So based on what the members have been stating to us about the efforts and the steps that have taken place we are going to continue to work with the district, as we always have, in order to meet the needs of students, in order to insure that students have the opportunity to receive the academic credits in order to be prepared for graduation on time. But at this particular stage in this conversation, if we continue it along the vein that it's going right now it becomes very subjective because it steps outside the confines of what is actually governing the course of action that we're taking today.

MS. ZOOK: Okay. Thank you.

CHAIRPERSON REITH: Thank you, Ms. Barnes.

Yes. Any additional questions from the Board?
Otherwise, I'll entertain a motion.

(501) 847-0510

Ms. Newton.

1 MS. NEWTON: I just had one more question and I think this would be for Mr. Williams, the school 2 board member. One of the things that Mr. Harvey said 3 was that you were put on probation for was a lack of 4 5 personnel. And I know that this is a time when districts are starting to look to hire teachers and 6 7 counselors and librarians, and you've got to hire a 8 superintendent. How are you going to approach this 9 hiring season? And have you already started looking 10 for a superintendent for the next year? MR. WILLIAMS: Well, that's the issue. 11 12 know, we had to go out and get another lawyer when 13 our lawyer couldn't represent us anymore with the problem we had, so that's -- with the injunction 14 15 I'm planning Tuesday night at the board going on. meeting to say, "Start posting those vacancies 16 because we need to get it done now." Because we're 17 18 being held up with -- to look for a superintendent, a counselor, certified teachers in all areas, and 19 20 that's a problem right now. 21 So do you have any sort of a plan? MS. NEWTON: 22 MR. WILLIAMS: Ma'am? 23 MS. NEWTON: Do you have any sort of a plan?

MR. WILLIAMS: A plan -- well, what we do, I

suggest we post it in all the current newspapers, you

24

25

2

3

4

5

6

7

8

9

21

22

23

24

25

know, the Arkansas Democrat Gazette Democrat [sic], the papers in the other states around us. Also, you know, put it on the internet website. So we need to get it out there, saying we need those teachers. And, you know, Teacher Corp, Americorp, and TFA. we've got to get the word out that we need teachers, and it's hard to get teachers in the Delta and it's hard to lose certified teachers, you know, or noncertified. Because talking to Dr. Wilde, with the problem we had we've created four problems now with the problem we had with the counselor and in terms of noncertified, changing students around. So we've created more problems by doing what -- those two issues with the Coach and a counselor. Imagine the other issue we'll have in losing teachers now. got two or three that's already resigned at the end of the year. And so I hate to lose those two, and those are certified teachers also. It's difficult. So that's why we've got to get this problem resolved.

And my comment, when I got up a while ago, if I may, Chairman, is -- have you talked to -- is it

Johnny -- Ronnie -- Ronnie Hughes about the credits

and things like that? Because he showed that we

weren't in violation of our credits and I'm sure he

talked to the State Department people about that.

You know, he's worked with the State Department.

Have you talked to Ronnie Hughes? I hate to put him on the spot but maybe you should talk to him.

CHAIRPERSON REITH: I'm sorry; could you repeat that question again? I apologize. The Commissioner and I were actually speaking to your fiscal distress at this time as well that we wanted to raise with you.

MR. WILLIAMS: Okay.

1

2

3

21

22

23

24

25

CHAIRPERSON REITH: But could you kindly repeat your question?

MR. WILLIAMS: Oh. I said, have you -- I hate to put him on the spot but have you talked to Mr. Ronnie Hughes? He's coming down and helping us fill the counselor situation, been there about once every -- once or twice every week for the last two months, so -- and also beginning of the year. So maybe -he's addressed those same things and showed the State Department that we're not in -- those courses that are being offered they said that weren't being offered, the drama and the half-unit. He showed there -- it's on his master schedule where they have been offered. So maybe you need to talk to him; he's And I don't know why the State -- the people here. in the State are not listening to him, but they

14

15

16

17

18

19

20

21

22

23

24

25

aren't listening to him. So maybe you could ask him a question or two, if he wouldn't mind coming forward.

CHAIRPERSON REITH: Well, with that I guess I'll refer to Ms. Barnes or Mr. Harvey here if that's I guess a conversation that's been ongoing. I guess it's usually at this level we have the Department that oversees I guess those kind of conversations. I guess if you could give some guidance to us here in that regard?

MS. BARNES: Well, of course, Madam Chair, you have the liberty to listen as long into the conversation as you would like. The one thing that I would state here is that, of course, the district was given the option to file an appeal regarding the recommendation that we were making. Not only was the district given that by electronic and by certified mail, contact was made because we were entering the latter part of that timeframe. And the answer that we received was that we would not be filing an appeal, and so that was the last day. I made the personal call myself in order to insure that we would have all of the agenda items prepared. I don't have -- I have no contention to hearing from Mr. Hughes; however, I don't know that it will have a bearing on

1	the fact that violations occurred or the evidence was
2	insufficient at the time or that the district did not
3	make the corrections within the timelines or that
4	they made no appeal to what we were recommending.
5	CHAIRPERSON REITH: Thank you. And I guess with
6	that actually, I would like to know, Mr. Williams,
7	why that you all did not submit an appeal and then,
8	instead, going through the public comment process to
9	offer up your appeal?
10	MR. WILLIAMS: Excuse me; that's what I was
11	going to ask Ms. Barnes. Who makes the appeal? Is
12	it the president of the board, the board, or the
13	superintendent? And, see, so we're you know
14	I'm new at somewhat new at this but
15	CHAIRPERSON REITH: If you could kindly speak
16	into the mic. I'm sorry. It's just
17	MR. WILLIAMS: Okay.
18	CHAIRPERSON REITH: for the purpose of the
19	court reporter and live-streaming.
20	MR. WILLIAMS: I was going to ask Miss
21	CHAIRPERSON REITH: Thank you kindly.
22	MR. WILLIAMS: Excuse me. I was going to ask
23	Ms. Barnes who makes that appeal. Does the president
24	of the board make that appeal, does the board, or the
25	superintendent? So, see, so, you know, we weren't

2

3

4

5

6

7

8

9

10

11

12

13

14

15

16

17

18

19

20

21

22

23

24

25

quite aware of who makes that appeal. So, you know, if the superintendent didn't, we're going to say, "Why not?" Because, you know, I think it should -well, I don't disagree about being on probation; just -- I just don't want it to be much more severe than what it seems like it might be, you know. Because we did not have a counselor first semester but the board itself has made every effort to get a counselor and, you know, come back with the same recommendation every time when we rejected the first recommendation. We expected another recommendation, not another day for the same recommendation. So we made efforts. So who makes that appeal? Does it come from the board, board chairman, or -- Ms. Barnes, who makes that appeal? I did make contact with the MS. BARNES: superintendent. Now Mr. Morris would have mailed out the information to both the superintendent and to the But when I made the request, the final board. request, it does come from the superintendent, because the superintendent would submit a request to appeal to our Commissioner and then be placed in our hands to do the follow-up on the process. Yes, sir.

> Sharon Hill Court Reporting (501) 847-0510

MS. BARNES: And then we had a conversation

Thank you.

CHAIRPERSON REITH:

prior to all of that, but --

25

MR. WILLIAMS: You and I or --

MS. BARNES: Yes, sir.

MR. WILLIAMS: Oh, that was December.

MS. BARNES: Yes, sir. In December, we did have a conversation.

MR. WILLIAMS: Okay. I want to point out too that, see, I probably initiated some of the standards, the grievances, because back in November I talked to Ms. Barnes and Dr. Wilde and I said we had some problems, you know, back then. And so that probably contributed to sending the State down, because she said we had more than just two problems, So we're concerned, you know, the we had several. board is concerned. But it seemed like -- I'm going to be bad -- I'm the bad guy at the board anyway -but it seemed like the superintendent didn't want to appeal it because of what -- the drastic action that you may take and it may benefit her on the other way. You follow me? So that's why I said could I make the But we don't deny that we didn't appeal, you know. have a counselor, but the facts leading up to not having a counselor was not the board's problem. It's not the board's fault; it's a problem with our employee.

CHAIRPERSON REITH: Well, thank you, Mr.

Williams. We appreciate that you're in a very

complex and challenged situation. And I appreciate,

Ms. Barnes, your entire team in helping to try and

elucidate, as well as with Ms. Freno, in terms of,

again, once again, a very complex process.

And then, Commissioner, I know on top of that we were on the side -- to bring forth to the entire Board, there are some additional complexities with the fiscal distress and you might speak to that, Commissioner, briefly.

asking that question about the process, one of the things that I want to make sure the Board remains aware, because this district is under fiscal distress, these types of hiring decisions have to be submitted to the Fiscal Support Office through debt requests and then that approval has to be delivered back to the district. And so that's a very important part of this conversation. And again I wanted to make sure y'all were aware that we are working -- it's not just the standards issue, it's the fiscal distress issue, and that team is working with them on that as well.

CHAIRPERSON REITH: Thank you. And I guess

	35
1	we're oh, yes, Ms is it Mr. Hill, Dr. Hill.
2	DR. HILL: I just wanted to ask Mr can I
3	CHAIRPERSON REITH: Please, by all means.
4	DR. HILL: Mr. Barnes is it
5	CHAIRPERSON REITH: Mr. Williams.
6	DR. HILL: Mr. Williams.
7	CHAIRPERSON REITH: Mr. Williams or Mr. Walton.
8	DR. HILL: Can I ask a question? Can I I
9	just have one question. Is the superintendent that
10	you all are not going to retain still on the job
11	right now?
12	MR. WILLIAMS: According to the injunction
13	there, we had to let her stay. So until the
14	injunction is solved she has to be
15	DR. HILL: So who's running the district right
16	now?
17	MR. WILLIAMS: She is there but
18	DR. HILL: She's running it now. Okay. That
19	was my question.
20	CHAIRPERSON REITH: And, Dr. Hill, she is
21	present here today as well.
22	DR. HILL: Okay.
23	CHAIRPERSON REITH: And for anyone on the board,
24	now I will say nobody except Mr. Walton and Mr.
25	Williams signed up for public comment. And for your

purpose as well, Mr. Williams, in regards to Mr.

Hughes, the reason that he wasn't specifically called is he wasn't signed up for public comment. But that doesn't limit any of the Board -- as somebody who's present here today, just like with Ms. Murdock being present here today, if any of you all have additional inquiries -- we know that other representatives from the Lee County School District are present if folks would like to ask some questions.

Yes, Mr. Williams, and then I know Dr. Barth does have either a question or a motion.

MR. WILLIAMS: Go ahead then.

DR. BARTH: I have a motion, so --

CHAIRPERSON REITH: Okay.

DR. BARTH: But go ahead.

MR. WILLIAMS: Well, okay. I shouldn't, but I want to refer back to Mr. Key's comment about the fiscal distress. That's all connected with the problem we had with employees. The fiscal distress is based on another case that we had in court, see, so that's -- that was -- we were almost ready to be released until this started, see, so -- from fiscal distress. So really we're not in fiscal distress; our situation is a pretty good situation most -- both ways, academic and monetarily/financially, because of

what's -- you know, the last two or three years, because of the board also getting involved with the fiscal management of the district. So, you know, we have to ask those questions and the board asks those things about financial, so the fiscal distress is not an issue anymore; it's just still in court and that's why we haven't been released from fiscal distress, because of the court issue, with them releasing us from that because of an insurance issue with the past superintendent. So that's -- I did want us to talk about that, but that did come up. Okay.

CHAIRPERSON REITH: Thank you, Mr. Williams.

Thank you for that additional context. And,

obviously, you know, as I think everyone has said,

this at the end of the day is about the children but

we realize there are adult complex real issues that

have to be addressed here.

And so with that --

DR. HILL: Can I ask one?

CHAIRPERSON REITH: Yes, Dr. Hill.

DR. HILL: Is there anybody -- because I wasn't here the last time either, so I was trying to get upto-speed to make sure. Is there -- you said there was somebody else. Is there anybody else out there from a community standpoint that can give us greater

	36
1	clarity and then we can use because we're just
2	hearing from the board, and then I'm talking about
3	from the community. Is there
4	CHAIRPERSON REITH: We do know that and, Ms.
5	Murdock, has been seen, I believe.
6	DR. HILL: Is she here?
7	CHAIRPERSON REITH: I don't know if she's in the
8	audience right now.
9	DR. HILL: Yes. Can I just I'd just like to
10	hear from her just before
11	CHAIRPERSON REITH: Yes. No. Yes, that would
12	be
13	DR. HILL: Ms. Murdock, would you
14	CHAIRPERSON REITH: That would be appropriate,
15	Dr. Hill. Yes.
16	DR. HILL: Thank you.
17	CHAIRPERSON REITH: And, Ms. Murdock, if you
18	could state your name and title for the record
19	please.
20	SUPT. MURDOCK: Willie Murdock, superintendent
21	of Lee County School District.
22	Good morning, Madam Chair, Board Members. Well,
23	we're back. We did come last month at the request of
24	several community members, Representative Murdock
25	being one of those members who represents Lee County.

1 We do have problems. We have communication problems with the relationship with the board and the 2 superintendent. I would like to say that many of the 3 things that you heard this morning are very not true. 4 5 We have minutes to show what's been going on. person in charge of personnel, I have made several 6 7 personnel recommendations for a counselor early on 8 this year. We actually hired Mr. Hughes this summer 9 so he would come and help until we got a counselor. 10 I have made recommendations. We have one particular 11 teacher that applied for the position as counselor; she has been denied. We have another teacher that 12 would cover her classes that was certified in 13 The board did not want this teacher to be 14 English. 15 removed from the classroom. In Lee County we have to 16 grow our own. We have to grow our own. We have to give our teachers and our other staff opportunities 17 18 I was given an opportunity to move up to move up. from being a substitute teacher, a product of the 19 20 district as a substitute teacher, and now five years 21 superintendent of the district. I have been state-22 I understand that our relationship -- my appointed. 23 relationship with the board and the current board may 24 not be the best because I was state-appointed and 25 they would like to hire their own superintendent.

2

3

4

5

6

7

8

9

10

11

12

13

14

15

16

17

18

19

20

21

22

23

24

25

That's no problem with me. June 30th is my last day.

The problem is that whoever comes into the district

they must be able to lead in the way that they see

fit.

We're not in academic distress. We were about to come off of fiscal distress. We were about -- we came off of academic distress in one year. about to come off of fiscal distress in less than two But because of the current situation with the years. board trying to micromanage the administrative job, that is our issue, and so we're looking for support. We do have Mr. Hughes here, who is a consultant with us, and Ms. Phylistia Stanley, our high school principal. Everybody has been working hard. Stanley has made the recommendation for me -- to me for a particular teacher. The teacher wants the job. The teacher is a good English teacher, yes, but she could be -- she could touch more students being a She wants to do the job; she's capable of counselor. I made the recommendation and it has doing the job. been denied several times. People are not busting the doors open to come to Lee County. We have to grow our own, and that's what we've decided to do is to grow our own. And so we feel that we have capable people in our district that can move up to different

1	positions. And we did have someone on our list, one
2	of our other teachers that would take the position as
3	the English teacher and she wanted that particular
4	job. So if I'm just allowed to do my job then we
5	would have we wouldn't be before you today. We
6	wouldn't be in academic distress, nor fiscal
7	distress. And so I just want to be able to do my
8	job, and whomever they decide to hire in June that
9	they allow them to do their job as well and not
10	micromanage personnel and any other matters that are
11	day-to-day operations.
12	CHAIRPERSON REITH: Thank you, Ms. Murdock. Dr.
13	Hill, thank you.
14	So with that, any final questions or comments
15	from the Board? Otherwise, I will entertain a motion
16	if Dr. Barth is ready with one.
17	DR. BARTH: Yeah. Obviously, things are very
18	complex in this district but the issue before us
19	today is I think fairly simple. And so I would move
20	to affirm the probationary status for both the high
21	school and the school district of Lee County.
22	CHAIRPERSON REITH: Okay. Do I have a second?
23	MS. DEAN: Second.
24	CHAIRPERSON REITH: Okay. Motion made by Dr.
25	Barth, seconded by Ms. Dean. All in favor?

	12
1	(UNANIMOUS CHORUS OF AYES)
2	CHAIRPERSON REITH: Any opposed?
3	Motion carries unanimously.
4	And, again, for the members of the board, for
5	Ms. Murdock, members from Lee County that might be
6	listening today, again, this is the first year of
7	probationary status and the Department did not make
8	any recommendation of additional action, nor was
9	additional action offered by the Board at this time.
10	So thank you to all and we wish you all the best
11	of luck and hope that we can be a resource and
12	partner. And obviously we know how hard our
13	Department is working in this complex time and
14	matter. So thank you all for that.
15	With that, I will I'll go ahead and convene
16	now a brief recess until 20-to-12:00. Thank you.
17	(BREAK: 11:30-11:42 A.M.)
18	A-3: DISTRICT REQUEST FOR WAIVERS GRANTED TO OPEN-ENROLLMENT
19	CHARTERS: FARMINGTON SCHOOL DISTRICT
20	CHAIRPERSON REITH: We will now move on with the
21	action agenda for this morning. Moving on to Action
22	Agenda Item Number 3, the District Request for
23	Waivers Granted to Open-Enrollment Charters from the
24	Farmington School District, Ms. McLaughlin, you are
25	recognized.

2

3

4

5

6

19

20

21

22

23

24

25

MS. McLAUGHLIN: Thank you. Yes, we have Farmington School District here to ask for district waivers. Act 1240 of 2015 allows a school district to petition the State Board of Education for all or some of the waivers granted to open-enrollment public charter schools that serve students who reside in the school district. Representatives of the Farmington School District are appearing before the Board with a petition for waivers. They have a topic for library/media specialist. The request will expire on June 6th and they have requested for five years. Present today we have Bryan Law, superintendent; John Purifoy, principal. And Clayton Williams, assistant principal, will begin the presentation.

Before I ask him to come, we do have -- I want to review the procedures. The school district will have 20 minutes to make their presentation. If anyone is here present to offer opposition they will also have 20 minutes. The district will then have 5 minutes to respond.

Madam Chair, you will probably want to swear in all of those that are here to speak.

CHAIRPERSON REITH: Thank you so much, Ms.

McLaughlin. And I don't have anyone here on the

public comment list. If someone could kindly check

	44
1	to see if anyone is there? Thank you, Ms.
2	McLaughlin.
3	And with that, for those speaking on behalf of
4	the district if you could kindly stand so that I may
5	swear you in this morning, and raise your right hand.
6	Do you swear or affirm that the testimony you're
7	about to give shall be the truth, the whole truth,
8	and nothing but the truth?
9	(ALL SPEAKERS ANSWERED AFFIRMATIVELY)
10	CHAIRPERSON REITH: Thank you so much.
11	With that, Farmington School District, you're
12	invited to speak. Your 20 minutes shall commence.
13	MR. WILLIAMS: Thank you. My name is Clayton
14	Williams; I'm the assistant principal at the
15	Farmington Career Academies Farmington High School.
16	I apologize for not wearing purple today but my wife
17	is a graduate from Fayetteville, so maybe I can get
18	some of that credit for
19	CHAIRPERSON REITH: Fayetteville High School,
20	that's another one of my alma maters. You're hitting
21	it all home today. Thank you.
22	MR. WILLIAMS: or get a little purple for
23	that one.
24	I'm here on behalf of the district to ask for a
25	1240 waiver for media specialist. Just to give you a

little bit of background, we are currently a 9
through 12 campus. We have a freshman academy. It's
an academy within an academy system. In the
Farmington Career Academies we applied for conversion
charter status back in 2015. In the 2017-18 school
district [sic], we do intend to move the 10 through
12 career academy to a new facility about three
minutes away, and we're very excited about that. In
fact, next week we'll be making a presentation to the
Charter Authorization Panel to request that amendment
to move there.

so our formal request is basically to use an instructional assistant for the 9th grade media center that will -- for the 9th grade that will remain on that particular campus. Basically, we know that the requirements of the student population -- the incoming 9th grade is potentialed at about 203, and so the requirements would be a half-time media specialist position. We have done a little bit of research and we do estimate this -- having this waiver for about five years. We're unsure because there are some building issues that we can't necessarily anticipate. Just -- and I don't know if you've got our presentation, but it's there just to kind of show -- right now this is our current campus.

We are excited because in buildings A and F that's on that school map these will be occupied by the Northwest Technical Institute and Northwest Arkansas Community College. We are in agreement with them to be able to sponsor the Southwestern Career Center, which will be opening up in the fall to be available for usage from all schools in southern Washington County. So we're really excited to be able to offer four pathways, I believe is what the anticipated career and technical part of that is. And then NWACC does have a presence on our campus for not only our students but also in the community as well.

The reason that we are only going to have 9th grade on that campus for a while is because if you look at building D, which is our main building, a part of that because of facilities agreement will have to be demolished. And then also letter B is an old gymnasium, which will also have to be demolished, and it will be converted into a community shelter area, and so basically we're only really able to house one class grade on that campus. And so we anticipate, because of that, the requirement is to have a half-time media specialist and we feel like, based upon some of the data that we've gathered, that we would be probably better able to do that job with

an instructional assistant. We surveyed our current 9th grade and just asked them very basic questions, how often do you visit the school library, and we had about 78% that hardly ever go to the media center, and that's for a variety of reasons. And even in the second question we kind of did the check-box survey of how do you mainly use the library and they could answer multiple things. And if you kind of look on there it's mainly used for research and then also access to the internet. We do have books there, obviously, that students will go in and check out and read for pleasure. We also have a community library as well where that service -- those services are also available. But we just feel like that the -- based upon the main role of our media specialist, even currently with the 9 through 12, that this is a need for our district. So basically our kind of rationale going through this is we still want to provide the academic and support needs for our students, obviously, and we're able to better meet that as a district. We have invested in technology to be able to have Chrome carts in the classrooms, which has diminished the role and need for a lot of times taking students to the library to do research. We've been very blessed to be able to do that.

So with that, we want to provide fiscal responsibility for our district. A half-time media specialist would be about a \$27,000 investment per year just on salary alone, and that is only a half-time position. So we felt that by being able to hire someone there full-time that we're definitely kind of getting more bang for the buck there.

And let me go ahead and back-up for just a moment, that this instructional assistant would also be under the oversight of the high school media specialist and so they would be working in conjunction together to be able to meet the academic and service needs of our students. So it's not we're just hiring somebody and throwing them into a room; they would be under the oversight of the high school media specialist.

And also I think our survey data kind of helps support that our media center is primarily used for research for those types of things. And our staff is wonderful; they -- again, we're blessed with technology, but a lot of that is done within the classroom and it's almost like the media center is kind of done as a secondary source for that.

I apologize because we do have a board resolution that I was not able to include in our

	49
1	original packet; the board met after the deadline.
2	So I do have that. I do not have copies, but I will
3	be more than glad to read it or to go ahead and
4	present that.
5	CHAIRPERSON REITH: I guess I would ask Ms.
6	McLaughlin: does it need to be read into record?
7	MS. McLAUGHLIN: No.
8	CHAIRPERSON REITH: Okay. Thank you. It's
9	adequate for us just to know that it exists. Thank
10	you.
11	MR. WILLIAMS: Sure. Sure, sure, sure. And so
12	basically we just believe that by having this waiver
13	we do have students within our district that have
14	enrolled in the Arkansas Virtual Academy and that
15	meets the stipulations for the Act 1240. And we
16	would ask that we are granted this waiver for five
17	years. Thank you.
18	CHAIRPERSON REITH: You all do have some
19	additional time. I do not know I know other
20	individuals stood; I don't know if there's someone
21	else from the district that wishes to speak. You
22	have about 13 minutes left.
23	MR. WILLIAMS: No.
24	CHAIRPERSON REITH: Okay. No worries. There
25	may be the opportunity then with the question period.

	50
1	Ms. McLaughlin, was there anyone from opposition
2	that was signed up or just in
3	MS. McLAUGHLIN: No, ma'am.
4	CHAIRPERSON REITH: general signed up?
5	MS. McLAUGHLIN: No.
6	CHAIRPERSON REITH: Okay. Thank you.
7	Then, any closing comments from the district?
8	MR. WILLIAMS: I don't believe so. Thank you.
9	CHAIRPERSON REITH: Okay. Thank you so much for
10	your presentation.
11	So with that, I'll open it now up to questions
12	or comments from the Board, or even a motion, if so
13	inclined.
14	Ms. Zook.
15	MS. ZOOK: So the certified media person would
16	be there? Because I know a lot of the ways that as a
17	classroom teacher they rely on them to help them find
18	things to supplement the lesson within the classroom,
19	so it's not so much like the old library system as it
20	is someone that assists the teacher. And so the
21	noncertified person would still have her access to
22	the media specialist for those kinds of aids and
23	helps?
24	MR. WILLIAMS: Yes, ma'am. Our new facility
25	will be about two to three minutes away. Farmington

	31
1	is not that big of a community. But it's about two
2	to three minutes away, and so even in your most
3	immediate needs then the media specialist will be
4	available. Yes, ma'am.
5	MS. ZOOK: And your staff is aware of this and
6	comfortable with it?
7	MR. WILLIAMS: Yes, ma'am.
8	MS. ZOOK: Thank you.
9	CHAIRPERSON REITH: Thank you so much, Ms. Zook.
10	Any additional yes, Ms. Newton.
11	MS. NEWTON: When do you anticipate the 8th
12	grade being moved to the campus?
13	MR. WILLIAMS: That is a little bit of a
14	difficult situation based upon the construction needs
15	of our district. As I was talking to Ms. McLaughlin,
16	we asked for a five-year waiver. If we can complete
17	that before then, then we will hire a media
18	specialist at that time. If it goes a little longer
19	than five years, then we'll come back in five years
20	and ask for an extension of the waiver.
21	MS. NEWTON: Okay.
22	MR. WILLIAMS: It's not something we want as a
23	permanent fixture; we just want it
24	MS. NEWTON: But you're anticipating it going
25	for several years then?

1 MR. WILLIAMS: Yes, ma'am.

MS. NEWTON: Okay.

SUPT. LAW: I want to address that a little bit.

I'm the superintendent.

CHAIRPERSON REITH: If you could kindly come to the mic. I'm sorry; you'll have to state your name and title for the record. And you were one of the individuals, sir, that I swore in? I just wanted to make sure.

SUPT. LAW: Okay. Yes. Yes.

CHAIRPERSON REITH: Thank you.

SUPT. LAW: Yes. My name is Bryan Law; I'm the superintendent at Farmington. And everything that was said is exactly correct. Just to add to that a little bit, we are a rapidly growing school district and we are currently building a new high school that we're building in three phases. We are in our third year now of building and we still have about two more years of building to finish that up, at which point we have built two elementary schools that feed into one elementary school; so that one elementary school is exploding at the seams. For example, this year we really thought we were going to have to feed four lunches at one time and our elementary students were going to have to start eating at 10:00 in the

morning, which obviously is not a good situation. So after we move away from the high school, we have put a Band-Aid on our upper grades. We're going to have to go back and look at our lower grades.

Financially, we just can't eat this whole elephant at one time. So we'll go back to the elementary; we will work in our 4th and 5th grade building to try to expand it, especially in the cafeteria area, at which time then we will begin to look to rebuild. After we remove these two old buildings that Mr. Williams correctly told you would have to be removed we will come back and replace those buildings. But we can't -- we can't afford to skip over the elementary problems; we have to go fix those at this time, when our 8th graders are in a very nice building that was just built about 15 years ago and there is not a great -- you know -- the greater need is in the elementary after we finish the high school.

MS. NEWTON: Okay. That helps. Thank you. Thank you.

Just one more question. You said you had talked with the teachers. Have you talked with the parents to see how they feel about the --

SUPT. LAW: I'll let him finish up, since he was

prepared, but our community is very excited about 1 what's taking place. The conversion charter process 2 that we went through a couple of years ago has been 3 well received. We are building a high school that 4 5 I'd love to show you, that we have built and laid out in wings to be career academies. The building is 6 7 truly built for career academies and for that growth. 8 And so I feel -- I've not heard a negative comment. 9 I'll let him speak to that, but everything I 10 believe is very positive about the changes that are 11 taking place. 12 MS. NEWTON: Thank you. MR. WILLIAMS: And we didn't reach out to the 13 entire community but, again, we did have it as part 14 15 of our regular session of the school board and it was 16 on the agenda and there was no opposition that showed 17 up for that as well. 18 CHAIRPERSON REITH: Thank you all. 19 Any additional questions or comments from the 20 Board? Otherwise, I will entertain a motion. 21 I move that we grant Farmington the MS. ZOOK: 1240 waiver. 22 23 CHAIRPERSON REITH: And if I might just -- to 24 clarify, the media specialist waiver? Usually we do

it by waiver topic and that's what they've

25

	55
1	specifically asked for.
2	MS. ZOOK: Oh, I didn't is there there's
3	just one; right?
4	CHAIRPERSON REITH: There's just the one, the
5	media specialist.
6	MS. ZOOK: Oh, okay.
7	CHAIRPERSON REITH: That's correct, Ms. Zook.
8	MS. ZOOK: All right. For the media specialist.
9	CHAIRPERSON REITH: Thank you. Do I have a
10	second?
11	MR. BLACK: I second.
12	CHAIRPERSON REITH: Okay. Motion made by Ms.
13	Zook, seconded by Mr. Black. All in favor?
14	(UNANIMOUS CHORUS OF AYES)
15	CHAIRPERSON REITH: Any opposed?
16	Motion carries unanimously.
17	Congratulations and best of luck. We look
18	forward to hearing more about your efforts.
19	MR. WILLIAMS: Thank you very much.
20	CHAIRPERSON REITH: And congratulations on the
21	growth. And some new teachers here that are looking
22	for a job, just to connect the dots; I know they're
23	all up there in Northwest Arkansas.
24	MR. WILLIAMS: We're right on it. We're right
25	on it.

	50
1	CHAIRPERSON REITH: This might be the most
2	serendipitous board meeting you all could have come
3	to. No. But thank you all.
4	A-4: DISTRICT REQUEST FOR WAIVERS GRANTED TO OPEN-ENROLLMENT
5	CHARTERS: RIVERVIEW SCHOOL DISTRICT
6	CHAIRPERSON REITH: So moving on, Ms.
7	McLaughlin, if you could lead us through Action
8	Agenda Item A-4, the District Request for Waivers
9	Granted to Open-Enrollment Charters for the Riverview
10	School District.
11	MS. McLAUGHLIN: Yes. We have representatives
12	from the Riverview School District today. Their
13	topics that they are requesting are the planned
14	instructional time, class size and teaching load,
15	teacher licensure, and library media services. The
16	request expires on June 11th and they have requested
17	for four years. We have David Rutledge,
18	superintendent.
19	CHAIRPERSON REITH: Thank you, Mr. Rutledge. I
20	do need to swear you in. And will anyone else be
21	joining you?
22	SUPT. RUTLEDGE: Mr. Luttrell, our high school
23	principal may have some questions to be answered as
24	well.
25	CHAIRPERSON REITH: So anyone planning to offer

testimony, if you all could stand up please, kindly, 1 and raise your right hand. Do y'all swear or affirm 2 that the testimony you're about to give shall be the 3 truth, the whole truth and nothing but the truth? 4 5 (ALL SPEAKERS ANSWERED AFFIRMATIVELY) CHAIRPERSON REITH: Wonderful. Thank you so 6 7 much. 8 You may proceed with your 20 minutes. 9 And, Ms. McLaughlin, thank you for checking if there's anyone signed up on opposition. 10 11 You may proceed. 12 SUPT. RUTLEDGE: Wonderful. Thank you for the 13 opportunity to present today. As you can see, I want to take just a moment and 14 15 talk a little bit about the Riverview School District 16 because we approach education just a little bit differently than maybe some schools in Arkansas. 17 18 are a New Tech school, a whole school conversion in our high school, which means that we are a project-19 and problem-based school wall-to-wall in all of our 20 21 In 9 through 12 we focus primarily on classrooms. 22 projects and problem-based opportunities. 23 We are a district that is one-to-one K through 24 12 with Apple technology. All of our students in 25 grades K through 3 are -- pardon me -- K through 2

have iPads, 3 through 12 have MacBooks, and so we are technology rich. As part of our New Tech project/problem-based initiative we really seek to add technology and empower students through technology. We have -- we are in our fifth year of being a New Tech school; this is my second year as superintendent at Riverview, and so we are kind of having to reboot, if you will, our efforts in order to become a successful New Tech school. We have made significant progress in the last two years and we believe that we have worked diligently within the confines and structures that we have within the traditional standards and accreditation and so-on.

What we would like to do, our goal is to make this next step toward true personalization for our students at Riverview. To kind of give you some anecdotal evidence, we've had conversations early on this year especially about re-visioning our senior year. Many of our students come to us their senior year specifically needing one, possibly two classes; they need their English or they need their math, or they need both. And so in that traditional eightperiod day we put them in those classes but then we oftentimes struggle to find classes that either (a) they're interested in, or (b) that's going to be

relevant and engaging to them once they leave our campus and move on to secondary education or into the workforce.

At this time we don't anticipate any fiscal impact to the Riverview School District. There won't be any additional staff hired or lost as a result of this. We're not on any type of academic or fiscal or financial distress at all. We are fully accredited with the state and we are not using any of these waivers to try to alleviate any kind of accreditation issues.

To kind of talk a little bit about our mission in our junior high and high school -- and this is where the waiver requests are primarily going to focus -- Riverview High School and Junior High are schools focusing on student success through project-and problem-based learning empowered by technology that provides authentic real-world experiences to personalize student education and a positive culture. I know that's a mouthful. But if you go to the graphic that's on your screen now -- and you may have seen this before and if you have, I think it's a really great graphic -- we have really in the last two years been focusing on the bottom two levels of this hierarchy of change: our purpose and mission.

2

25

And on the previous side we kind of stated our mission a bit, and this year we have made some significant gains in culture and relationships. And as I said at the beginning of the presentation, we feel like we have manipulated and expanded and taken advantage of all the flexibility that we can in the current structures that we have. And so in this hierarchy of change we're looking at what policies and what structures can we change in order to better meet the needs of our students and personalize education for our students. Obviously, we are working in all of these areas at all times. year though we hope to focus -- or this year we're hoping to focus on policies and structures that are kind of standing in our way in flexibility to really expand our project/problem-based efforts and really personalize education for students.

To give you kind of an idea of what we're wanting to accomplish at Riverview -- and we presented this to our board in December and it was met with a lot of positive feedback -- we want our students to have a plan. Once they leave our high school we want them to have every opportunity that we possibly can give them to find their niche, to find their path, to find a plan that they're going to be

successful, whether that be college, whether it be our partnerships that we're working through with ASU-Beebe, ASU-Searcy, whether it be the required coursework. If we have students coming in their senior year, and maybe they haven't been successful in their high school career and they need every period in that day, we want to be able to give them that opportunity to graduate. We want to provide more opportunities to tailor and personalize what our students receive as far as an education at our school and really meet what their desires and what their needs are. That way, we can get them into the workforce.

We are a 76% free and reduced lunch school, so we do have a high poverty situation. Most of our students lack a plan sometimes when they leave. They have not had maybe the experience or the influence from home that we would like to see them have. If we can get them into internships, if we can get them into community service learning projects, most of our students are going to stay in our community. We want them to be able to find a way to function and contribute back to our communities and we believe that through all of these areas that we can do that.

As far as planning for our personalization, I

told you we had a conversation -- lots of conversations actually about, first, reimagining our senior year and then rolling this back into what do our students need to personalize education and then what do our teachers need as well in order to make project/problem-based learning grow. We basically tasked our teachers with "what can you come back with and what can we do to; "we hear that you're telling us you need more time to collaborate, you need more time in class, you need bigger blocks of time. So what can -- help us find a solution." And we currently are on a traditional eight-period day and many schools -- several schools in Arkansas are moving to the Flex/Mod schedule, and I'm sure many of you probably have heard presentations about the Flex/Mod schedule before. We believe that this will be a great answer to allowing our teachers in the project-based/problem-based learning environment to have larger blocks of times with students, and at the same time also create some time that is unstructured -- unstructured independent learning time that students can work collaboratively with groups on projects and as well as providing a safety-net, if you will, for some structured learning times for those students that are struggling. We really wanted

to build this from the ground up and build consensus with our teachers. We started having conversations about the Flex/Mod in December. Approximately 80% of our teachers, in both the junior high and high school, have either visited one or more schools that are implementing the Flex/Mod. The concepts are pretty much the same across the board. But one of the things that we really like and the feedback that we got from schools that we visited was that you can tailor the Flex/Mod to fit your kids, your schools, and your needs, and that really is appealing to what we like -- what we want to do as far as personalizing education for our students and also giving our teachers that greater opportunity.

As far as the Flex/Mod goals, we want students
-- we want our time that we have with students to be
able to serve our students, not our students just
serving time. As we talked about, we have kind of -and we're not unlike many other schools, high schools
in the state of Arkansas where when you have students
coming in that senior year they end up being put in
the classes that maybe aren't relevant to them;
they're not engaged. And so we want to work to find
that level of engagement, that high level of
engagement, especially that senior year, and spanning

back into the junior and so-on to really engage students and provide them those opportunities, those experiences, whether it be taking a class on a college campus. And I know we have lots of concurrent credit offerings but one of the things that we are looking to do is actually place students on a college campus to take a college course. For so many of our students in a high-poverty area it's more about them being able to see themselves on that campus and in that environment than it is about actually taking the course. And if we can get them to see themselves in that environment we believe that we'll have more kids choose to either go to the community college or go to CTE programs that will result in employment after school.

So we've talked a lot about research taking place both inside and outside the classroom. We have -- we currently practice a lot of that, as well. We believe strongly, as I said, being a New Tech school, project/problem-based, that learning does not take place just in the confines of the 45- to 47-minute period that we currently have. We have students working diligently outside on their own time.

In this Flex/Mod schedule what we hope to do is to provide for those students who are passing, who

are up-to-date, who are doing what they need to do some independent learning time that they can expand on these projects, collaborate with their group members, if they choose to jump on and take an online learning course, if they choose to take a concurrent course through Arkansas Virtual. We want students to be able to take ownership of their education in this independent learning time but also have that structure in place with a structured learning time that if a student isn't being successful that we can have them in a structured setting and move them through, get them back to a good spot, and then again provide that responsibility.

As far as the Flex/Mod schedule goes -- I don't know how familiar you are with the Flex/Mod, but essentially what we would do is we'd take our 8-period day and divide it into basically 20- and 30-minute segments that would allow us to have classes meet as little as 30 minutes, as much as 90 minutes, so-on and so-forth, and we can rearrange and move this time as much as we need to. And there's tons of flexibility to meet the needs of our students and our teachers and then really customize what we are hoping to accomplish.

This would be a sample schedule potentially from

our junior high. As you can see, in class number two, if you will, in yellow, that class would meet --actually, it looks as though 60, 60 and 90, most of our courses, but they would not meet every day. But what the tradeoff is is not meeting every day but they would have a longer, more extended period of time during that 90-minute class period which would allow teachers the opportunity to dig into those projects and go into the learning deeper than what they currently can do in a 47-minute period that we have. We also have lunch advisory clubs and things of that nature, and we'll talk about those in just a minute as part of the larger picture of how we want to address the needs of our students.

One of the issues that we have across the board in grades 7 through 12 -- and I would say that we are not unlike many schools -- is we have a general lack of RTI at those levels, in 7 through 12. We do a pretty good job across the board I think in the state in K-6, but we still have students who come to us that struggle in grades 7 through 12. But being locked into an 8-period day, we have relatively little time to flex out or become flexible and meet the needs of those kids that are struggling. Some of the SOAR time, some of the structured learning time,

the independent learning time can be used to do
exactly this. Now obviously we're focusing on Tier 1
instruction, which is just really great classroom
instruction, but we really want our teachers,
especially in grades 7 through 12, to jump in and
start working with some of those targeted small
groups and even some of those one-on-one pieces with
our students.

Each class that we have will actually have an extended learning time each week, 20 to 25 minutes built into their weeklong schedule. This will allow for parts of that RTI time to happen. If the kid doesn't need -- a student doesn't need any RTI services, then they can use that time for makeup work, they can use it for project work time, they can collaborate on a project they're working on in class, or they can jump on and do, you know, whatever they've chosen. Again, it goes back to really putting the responsibility back on the students and the ownership back on the students as to taking that responsibility for their education, which is what we're trying to accomplish.

During our individual learning time we'll have two pretty -- two different structures here. We have our traditional slate of courses that every student

2

15

16

17

18

19

20

21

22

23

24

25

is going to be able to take but we also have a block of time that's called individual learning time, and I prefaced this a little bit before. During this individual learning time it is pretty well unstructured time during the day. During that time during the day students can have extra practice; we will have instructors with office hours that, if they're struggling in a math class or struggling in a science class, then they can go and they can get help from those specific teachers. They can work on homework, they can work on projects, they can work on community service projects, whatever they are interested in, and, again, giving them some of that opportunity to drive and take ownership of their own learning.

The other part we've talked about already is the structured learning, the Tier 2 and Tier 3 interventions. We struggle, like most schools, in grades 7 through 12 in order to find that time to really give meaningful, engaging, rich RTI interventions to those kids that truly need it. And if we're going to see those students succeed then we really need to have some of that time available in our structure 7 through 12.

Obviously, with the master schedule additions

1 things that we want to -- as far as personalizing learning, we want to offer virtual classes. 2 If a kid wants to take during their independent learning time 3 -- if they want to jump in and take an extra class, 4 whether it be concurrent credit or if they just want 5 to take something that we don't necessarily have the 6 7 capacity to offer -- if it's a photography class, a video editing class, whether it be virtually or any 8 9 other method -- then we want to support them in being able to do that. Internships are huge for us. 10 want to get students into our industries in our 11 I'm working closely with communities in 12 community. 13 our Chamber of Commerce in Searcy and really trying to bridge the gap between the expectations that 14 15 industry and education have and what our outcomes for 16 our students are when they leave us. And so I believe getting those students into some internships, 17 18 especially that senior year, and letting them see what it looks like to work in a lawyer's office, 19 20 letting them see what it looks like to work in a 21 vet's office -- ASU-Beebe has one of the only vet 22 tech programs -- the only vet tech program in the 23 state of Arkansas. Most of our students transition 24 into ASU-Beebe after they leave us; it's a real 25 opportunity for them. So we would love for them to

2

16

17

18

19

20

21

22

23

24

25

be able to step into a month-long internship with some vets in the area, just to say "is this what we like, is this a possible career path for me," and giving them those rich experiences to help them decide.

Obviously, advisory time -- one of the things that we focus on in New Tech is building a culture where students take ownership and responsibility of their own learning. And one of the things that we hear consistently from industry and education alike is the employability skills, the soft skills. part of this Flex/Mod schedule is the advisory time at both the junior high and the high school level to teach those skills, to overtly teach those skills. We want to do grade checks; we want to do teambuilding activities; we want opportunities for students to have community service learning projects. These are the skills that our students are missing and these are also the skills that industry and education are telling us that if they're going to employ or have their kids -- our kids on their campus they need in order to succeed. And so that is a huge, huge advantage for us in this; we want to take some time and overtly teach those skills because far too often we take for granted that the skills are

coming from home in that regard.

18

19

20

21

22

23

24

25

In our junior high setting we would like to develop personalized learning plans for each one of our students. Even though they may not have an alternative or individualized learning plan from an AIP, we would like to do personalized learning plans; that way, we can address the needs of each and every student and have SOAR time where students on academic rise each and every day. The Flex/Mod schedule, just like we've said, looks a little bit different in every building. We want to give our high school students a little bit more flexibility because they're a little bit older and hopefully a little bit more mature. But at the junior high it is going to look a little bit different because they do need a little bit more structure, they do need a little bit more guidance, and they aren't guite as responsible in 7th and 8th grade.

So when we talk about the waivers that we're requesting it's the planned instructional time. We know one of the areas that we're going to encounter is our independent learning time, our structured learning time, and our extended learning time. Our high school courses will still meet for a minimum of 132 hours per year, which will still meet the minimum

2

3

4

requirements for 60 hours per semester to issue

Carnegie units. But this will also give at least up
to an additional 175 minutes of either structured

learning time, extended learning time, or independent
learning time, depending upon the student, beyond the
regular classroom. And so when it comes to the
planned instructional time we want that -- need that
flexibility in order to be able to move our project
and problem-based learning forward.

Class size and teaching load -- obviously, the remediation intervention classes, the SLT (the structured learning time), we're hoping to keep all of these within the 150 guidelines or standards for accreditation, same thing for our integrated courses. We do -- as a New Tech school we integrate all of our humanities courses in grades 9, 10 and 11, so all of our social studies and language arts courses are integrated together. So we do have larger class sizes but we also have two teachers in either one of those classes to cut down on those issues. We would like in the future, as we grow our project/problembased capability capacity, is to jump into more integration beyond just our humanities. We have lots of opportunities, whether it be combining a geometry and an art class to create a geo-art class which is

really successful with students and engaging. We have opportunities there, but we want to be able to take those teachers -- and, again, if we do exceed the 150, which we're going to take every measure we can to make sure that we don't -- but have that opportunity, that flexibility to be able to do so.

And teacher licensure -- this is the piece where we really want to have some flexibility to listen to our students. We've talked with our students; we've surveyed our students as far as what they would like to see.

I'm sorry; I'm probably over my 20 minutes.

CHAIRPERSON REITH: Right. You're at 20 minutes, Mr. Rutledge. If you could, just final comments would be great.

SUPT. RUTLEDGE: I'll be quick.

CHAIRPERSON REITH: Thank you.

SUPT. RUTLEDGE: We would like to be able to tailor our instruction to our RNs, CNA programs, whether it be robotics. We know with our current staff we're going to have to pull people out of the industry in the area in order to get those folks in. So, waiving the teaching license, even if they come in for a period or two a day, would be very helpful and allow some more flexibility for our kids.

Our library media services it's very simple
for us. We want to be able to push our library media
services person we are at one-and-a-half right now
with our ratios. We don't anticipate lowering that
number, but we want to use our library media services
person to push into the classroom to teach digital
citizenship, advanced research, and things of that
nature to help teachers create and extend those rich
projects throughout the campuses. And, again,
obviously the outcomes we hope to achieve these
are the things that the teachers have told us they
need: they need more time, more collaboration, so-on.
And, again, the outcomes we hope to achieve with our
students is more important in that student
achievement obviously is primary. Engagement,
discipline, student attendance if it's relevant,
they'll be at school stronger social skills and
so-on and so-forth. And like I said, I apologize for
going over my time.
CHAIRPERSON REITH: Thank you so much, Mr.
Rutledge. And obviously you all have put so much
work into this.
SUPT. RUTLEDGE: Yes.
CHAIRPERSON REITH: I'm excited for your

district and for your students.

	75
1	Ms. McLaughlin?
2	MS. McLAUGHLIN: No.
3	CHAIRPERSON REITH: No opposition then.
4	And then I don't know if you have any closing
5	remarks that you would want to make; otherwise, I
6	know I have some questions and my colleagues
7	SUPT. RUTLEDGE: Sure.
8	CHAIRPERSON REITH: I believe may have, as
9	well.
10	SUPT. RUTLEDGE: Sure, sure, sure. And if I
11	can't answer them I definitely have my high school
12	principal as well. I appreciate your time.
13	Again, I know we're asking for a lot. As a New
14	Tech school we did weigh the options of going the
15	conversion charter route, going the school of
16	innovation route, and we have been working for so
17	long within the confines of these structures we feel
18	like we kind of push the envelope with our innovation
19	already. And so we feel like with these waivers
20	we'll be able to go ahead and take that next step
21	without having to go the other route, if you will.
22	CHAIRPERSON REITH: And I guess that I'll pick
23	up then where you left off because that was going to
24	be my question.
25	As I see your presentation, the thing that

	76
1	occurs to me is this should be a school of innovation
2	
3	SUPT. RUTLEDGE: Right.
4	CHAIRPERSON REITH: or this should be
5	SUPT. RUTLEDGE: Right.
6	CHAIRPERSON REITH: a conversion charter. I
7	don't know if I'm fully clear from your comments
8	there about why this route versus that route. I know
9	sometimes for some districts it's a timing issue
10	SUPT. RUTLEDGE: Right.
11	CHAIRPERSON REITH: and a timing of
12	applications. So, this is the one that allows it to
13	get in
14	SUPT. RUTLEDGE: Sure.
15	CHAIRPERSON REITH: but then there's still
16	the intentionality of moving forward down the road
17	that this leads into a school of innovation or a
18	conversion charter. Are those considerations that
19	you've all had? Is this also a timing issue for
20	y'all?
21	SUPT. RUTLEDGE: It is kind of a timing issue
22	for us as far as being able to make some changes for
23	next year. However, we have had the conversations
24	around the conversion charter piece, and really and
25	truly what we're looking at is what do we want to

accomplish for our students and to what degree do we need to go to in order to be able to achieve that.

With the school of innovation piece I'm not sure exactly how much -- we're looking more at the policies and structures as far as the flexibility within the day, if you will, more so than the innovation. And so the innovation we started almost five years ago with project- and problem-based learning, and so we were having kind of a hard time resolving within ourselves of should we actually go for a school of innovation when we've already been doing this for five years. What we need is just more flexibility when it comes to scheduling and a few other waivers.

CHAIRPERSON REITH: And maybe I could ask for a point of clarity here and this might -- whether it's Ms. McLaughlin, or maybe you Commissioner, that you might be able to assist. Is there anything they wouldn't be able to accomplish here that they're proposing within a school of innovation? I guess my understanding is that a school of innovation would allow this sort of latitude. And obviously I know we're considering the merits of this today and so this is also -- we have these ongoing conversations as a board around the different types of waivers, so

please know there's a context as well for this question.

COMMISSIONER KEY: Yes. They could achieve the same result on waivers through multiple means, and school of innovation is one of those.

CHAIRPERSON REITH: And so -- and in I guess working with the district I know -- Ms. McLaughlin, in working with the district were there -- I know we try in districts that come forth to give them guidance and which pathway, right, might make the most sense. Was there -- I don't know if the ADE maybe found some specific benefits for this pathway versus school of innovation or conversion charter?

MS. McLAUGHLIN: We did have a conversation about the timelines for district conversion and the school of innovation, which both have passed for this

CHAIRPERSON REITH: Yes.

MS. McLAUGHLIN: -- particular application year.

Next year is a possibility, if they have the letter of intent in March. And I believe that Cindy Hogue's deadline is somewhere near the first of March, as well. But we were able to -- he can apply for all of the waivers that he's applying for this year because all of the -- because the open-enrollment has those.

But a benefit to a district conversion application would allow a little more freedom; it's a negotiation process for more waivers if they felt that was needed for the students in their district.

CHAIRPERSON REITH: Okay. Thank you. I appreciate that.

So it does sound like there's some timing aspects here. And then, is this going to be an ongoing consideration or conversation for the district in terms of --

SUPT. RUTLEDGE: Absolutely. Absolutely. As we expand it -- and hopefully at some point we would love to roll our project-based learning and New Tech into our junior high and even lower, if possible -- then, yes, we'd obviously want to have those conversations around conversion charter and really digging into, you know, a more permanent solution.

CHAIRPERSON REITH: And then that lends my self to the last question: one of the things that a conversion charter or school of innovation -- a comfort level they would give us, right, is the process by which this is shared with the community and teachers and such, and obviously a lot of this has ramifications for specifically your teachers.

Can you talk us through a little bit of the process

22

24

25

by which this was shared with teachers and community? SUPT. RUTLEDGE: Absolutely. The teachers -again, we kind of placed it back -- we survey our teachers each semester and we talk with them in a very simple survey, "what can we do to make instruction better, how has your experience been at Riverview." And consistently what we got back was "we need more time to collaborate, we need more flexibility with scheduling," and so we put it back on them to say what can we do. Okay. "Let's go out and do some research; what can we do to give you what you need within the confines of the structure we have?" And so they came back to us with this idea. And, like I said, approximately 80% of our teachers have visited either one or multiple schools in the Flex/Mod. We came back, debriefed with them, and I don't believe -- between our junior high and high school staff we kind of took an informal vote, and we do have a hundred-percent consensus on moving in this I believe they feel like the more direction. enriched time, the longer span of time, the flexibility will definitely meet our students' needs better. As far as the community goes, again, the timing issue has been part of it; however, we do have a board resolution that was passed in February to

support the move to the Flex/Mod and the application for the waivers that we're requesting today, and so we had no opposition at that point. We had newspaper articles, we've sent -- we send multiple fliers home talking about our intentions to move forward, and to my knowledge we have had no negative comments whatsoever.

CHAIRPERSON REITH: And this will be my final question and then to the question/comments of the Board. So I appreciate and it's exciting that your teachers have bought into this vision. I guess I'm just wondering if they're aware of the specific waivers you've asked in regards to them? Because obviously things like their instructional time and workload are things that are going to have a direct impact on their day-to-day.

SUPT. RUTLEDGE: Absolutely. Yes, they are aware.

CHAIRPERSON REITH: Okay.

SUPT. RUTLEDGE: We've shared -- Mr. Luttrell, our high school principal has shared the waivers that we are requesting and the reasoning behind it and why we hope to achieve these waivers.

CHAIRPERSON REITH: Thank you.

Additional questions or comments from the Board?

1 Dr. Barth.

DR. BARTH: Thanks. And thanks for your well thought-out and well presented vision here. Just a couple of questions. On the area of teacher licensure, you provide some examples of the types of positions that you'd fill.

SUPT. RUTLEDGE: Absolutely.

DR. BARTH: My question is really, are you limiting your requested waivers to those positions or are you asking for a broader freedom in that arena?

broader freedom in order to basically survey our students and react to our student desires. Now obviously we've given some examples with the CNA, criminal justice, and things of that nature, where we feel like we could take some of our existing staff and give those students an opportunity or another pathway to personalize their education. What we're asking for is if we want to offer a robotics course, if we want to offer something more advanced, we don't have someone on staff that can do that. And we'd like the opportunity as students express an interest to be able to go out into our community and solicit someone to come in, even if it's for a period or two a day, just to try to get kids engaged in whatever

topic that they're interested in.

DR. BARTH: And I think the examples are great ones and the general notion that you're -- the sentiment that you're talking about makes perfect sense, and we've approved those for other schools. I just get worried when we do --

SUPT. RUTLEDGE: Sure.

DR. BARTH: -- a waiver of this sort that it does open a door.

SUPT. RUTLEDGE: Absolutely.

DR. BARTH: And I guess the question is, is there any way in which you would articulate some limitations in terms of tying this waiver to those kinds of initiatives that really would be career centered and where having someone who has expertise in the area being brought in would be the type of person that we're talking about here, not a full-scale --

SUPT. RUTLEDGE: Right. And that's exactly what our intentions are in this process. We are not looking to -- through this waiver to circumvent any kind of teacher licensure for core areas or to meet the 38 required courses at all. We are purely looking for ways to personalize education for students and give them that many more opportunities

	0-3
1	to experience something that maybe we can't provide
2	with full-time staff; we just don't have the capacity
3	to. And so it is going to be primarily limited to
4	CTE or those very specific areas.
5	DR. BARTH: See, you keep the wiggle room
6	wiggle words keep popping in
7	SUPT. RUTLEDGE: Sure.
8	DR. BARTH: and that's what gets me nervous
9	here. I mean, if these conversations are about, you
10	know, solidifying things I'm going to be a lot more
11	comfortable if the "primarily's" go away and we
12	really talk more definitively about these.
13	SUPT. RUTLEDGE: These will focus on CTE.
14	DR. BARTH: Thank you.
15	SUPT. RUTLEDGE: These will focus on CTE.
16	DR. BARTH: All right. Great.
17	CHAIRPERSON REITH: Thank you, Dr. Barth.
18	Additional questions, comments?
19	Yes, Ms. Zook.
20	MS. ZOOK: In the guidance and counseling, I
21	probably need guidance from the ADE staff. Is this
22	going to be an issue with regard to accreditation?
23	MS. McLAUGHLIN: They asked for that particular
24	the guidance and counseling to be removed. They
25	are no longer asking for that waiver.

	85
1	MS. ZOOK: Makes my job a lot easier.
2	MS. McLAUGHLIN: All right.
3	MS. ZOOK: Thank you.
4	CHAIRPERSON REITH: Thank you.
5	Questions or comments?
6	Yes, Ms. Newton.
7	MS. NEWTON: The library media, you are not
8	wanting to waive a specialist; you're only asking to
9	waive the time
10	SUPT. RUTLEDGE: Yes.
11	MS. NEWTON: the specialist does specific
12	duties; right?
13	SUPT. RUTLEDGE: Absolutely. Our vision for our
14	library media specialist is to get them into our
15	integrated classrooms, get them into our project-
16	based classrooms, which is all of our classrooms, and
17	really begin to help teachers teach those research
18	skills, the writing skills, and things of that nature
19	that they have such and technology skills that
20	they have such a rich background in and could benefit
21	our teachers. But they can't do that there in the
22	library.
23	MS. NEWTON: Have you talked to your library
24	media specialists about this?
25	SUPT. RUTLEDGE: Absolutely.

MS. NEWTON: And what was the response?

SUPT. RUTLEDGE: They are very excited about

being able to get out into the classroom and work

with teachers in a co-teaching setting.

MS. NEWTON: Are you going to give them any kind of help with their normal administrative duties that still need to be done?

SUPT. RUTLEDGE: Absolutely. We do have some paraprofessionals as well, but we also have one-and-a-half media specialists as well because of our ratio. And so we don't see any reason why our library would ever close or the administrative duties would change as far as having the lack of ability to do that.

MS. NEWTON: Okay.

CHAIRPERSON REITH: Yes, Commissioner.

COMMISSIONER KEY: Just to make sure that we note here, one of the waivers that they've requested actually will not be necessary because that law will not be in effect for the next school year. So just so y'all will know, and I was going to update y'all in my report later, that the waiver for instructional time, Arkansas Code 6-18-210 under Act 867, that has been repealed. So if y'all want a legal opinion on the effective date versus your choice here today --

	87
1	but if this is to go into effect for the next school
2	year, then that law will not exist at that time.
3	SUPT. RUTLEDGE: Very good. Very good.
4	CHAIRPERSON REITH: Thank you for that,
5	Commissioner.
6	Yes, Ms. Ables.
7	MS. ABLES: I just wanted to say I went to Kirby
8	as a student in a Flex/Mod for a day and I'm very
9	excited for your kids and your teachers. The
10	teachers there love it. They actually have more time
11	to really focus on things they need to. Teachers are
12	getting students are getting individualized help,
13	so I'm excited for you in that. And I just want to
14	say thank-you for empowering your teachers to be a
15	part of this process and not going to them and
16	saying, "Here's what we're going to do next year,"
17	and I just really thank you for that. I mean, I love
18	to see what happens and share your story.
19	SUPT. RUTLEDGE: I appreciate it. We'd love to.
20	CHAIRPERSON REITH: Thank you, Ms. Ables.
21	Any additional comments or questions? Otherwise
22	
23	Yes, Dr. Barth.
24	DR. BARTH: One more question on the class size/
25	teaching load issue, and it also is a question of the

25

breadth of your request there. Obviously you again articulated a really good example of why this might be necessary. Are you limiting the request to this scenario or are you asking for a broader student teaching load? SUPT. RUTLEDGE: We're primarily limiting it to this request -- sorry, "primarily" -- we are limiting it to this request. Thank you. We are limiting it to this request. We do have -- in this Flex/Mod schedule it is going to change the way we do things a little bit, especially with our integrated courses. Those courses are already large anyway with coteaching settings and so sometimes we'll have upwards of 40 to 45 students in a block setting. We are going to do our very best to maintain those numbers but we needed the latitude that if for some reason in the scheduling process -- that if we exceeded the 150 then obviously we could. DR. BARTH: But the request is limited to that scenario, those courses? The integrated courses and then SUPT. RUTLEDGE: our SLT as well, which is the structured learning

Okay.

Thanks.

CHAIRPERSON REITH: Any final questions or

time as well.

DR. BARTH:

1	comments from the Board? Otherwise, I will entertain
2	a motion. And I know we've sometimes done these by
3	waiver topic, sometimes as a whole. I'm not hearing
4	the type of questions or comments I think that would
5	lend us to necessarily have to do this by waiver
6	topic, although if that is the pleasure of the Board
7	we can do so.
8	DR. BARTH: That would be my preference.
9	CHAIRPERSON REITH: That would be your
10	preference. Okay. Then we'll proceed by waiver
11	topic.
12	Noting that the first waiver topic, planned
13	instructional time, I guess it's at your discretion,
14	Mr. Rutledge, if you would like us to proceed with
15	that one or not after hearing comments from the
16	Commissioner. It's going to be up to you.
17	SUPT. RUTLEDGE: We withdraw that request, as
18	long as it's going to be in law next year.
19	CHAIRPERSON REITH: Okay. Then starting with
20	the waiver request as related to class size and
21	teaching load I will entertain a motion.
22	Sorry, Ms. Newton; I didn't know if your pulling
23	your mic down was to entertain a motion or get ready
24	to vote.
25	MS. NEWTON: I was getting ready to vote, but

	90
1	I'll do a motion.
2	CHAIRPERSON REITH: That would be great. I
3	would love a motion.
4	MS. NEWTON: I move to approve the class size
5	and teaching load for the integrated courses and the
6	SLT courses.
7	DR. BARTH: Second.
8	CHAIRPERSON REITH: Okay. Motion made by Ms.
9	Newton, seconded by Dr. Barth. All in favor?
10	(UNANIMOUS CHORUS OF AYES)
11	CHAIRPERSON REITH: Any opposed?
12	Motion carries unanimously.
13	In regards to the waiver topic on teacher
14	licensure
15	DR. BARTH: I'll move to approve the teacher
16	licensure, limited to the CTE courses.
17	MS. ZOOK: Second.
18	CHAIRPERSON REITH: Okay. Motion made by Dr.
19	Barth, seconded by Ms. Zook.
20	All in favor?
21	(UNANIMOUS CHORUS OF AYES)
22	CHAIRPERSON REITH: Any opposed?
23	Motion carries unanimously.
24	And just to note that we can't impose those
25	restrictions; you offered to do so. We're just

	91
1	verbalizing that it was done
2	SUPT. RUTLEDGE: Absolutely.
3	CHAIRPERSON REITH: for Ms. Freno's purpose.
4	I saw her back there a little panicked for a second
5	and I just wanted to make sure we got that for the
6	record
7	SUPT. RUTLEDGE: Absolutely.
8	CHAIRPERSON REITH: that it was a self-
9	imposed voluntary decision that we are clarifying for
10	those purposes.
11	DR. BARTH: I'm sure it felt very voluntary.
12	SUPT. RUTLEDGE: Yeah, it was extraordinarily
13	voluntary.
14	CHAIRPERSON REITH: And then on the waiver topic
15	on guidance and counseling, my understanding is that
16	it's been pulled?
17	SUPT. RUTLEDGE: Yes.
18	CHAIRPERSON REITH: And so then the final waiver
19	topic is on library media services. I will entertain
20	a motion.
21	MS. DEAN: I move to approve the waiver for
22	library media services.
23	DR. HILL: Second.
24	CHAIRPERSON REITH: Okay. Motion made by Ms.
25	Dean, seconded by Dr. Hill.

	92
1	All in favor?
2	(UNANIMOUS CHORUS OF AYES)
3	CHAIRPERSON REITH: Any opposed?
4	Motion carries unanimously.
5	SUPT. RUTLEDGE: Thank you.
6	CHAIRPERSON REITH: Thank you. Thank you so
7	much, Mr. Rutledge.
8	And then with that, I don't know Ms. Davis,
9	yes.
10	MS. DAVIS: I know that the 6-18-210 is going to
11	be repealed but I would prefer if you go ahead and
12	take action on the rules that go with it, because at
13	that time even if the law is repealed it's still in
14	the standards. And until we get those rules done
15	then they will still be held to the 6-hour day on the
16	10.01.4. So, eventually, once the rules are updated
17	that will be phased out but that would kind of limit
18	them in the meantime of having this.
19	CHAIRPERSON REITH: So, thank you. Thank you,
20	Ms. Davis, for that clarification and for the
21	position of the Department.
22	I will pose it back then to Mr. Rutledge. I'm
23	assuming you would like
24	SUPT. RUTLEDGE: Yes. Yes.
25	CHAIRPERSON REITH: for the consideration on

	93
1	that waiver topic.
2	And to the Board, I will entertain a motion in
3	regards to the waiver topic on planned instructional
4	time.
5	MS. ZOOK: So moved.
6	DR. BARTH: Second.
7	CHAIRPERSON REITH: Motion made by Ms. Zook,
8	seconded by Dr. Barth. All in favor?
9	(UNANIMOUS CHORUS OF AYES)
10	CHAIRPERSON REITH: Any opposed?
11	Motion carries unanimously.
12	Now we are you can officially go, Mr.
13	Rutledge.
14	SUPT. RUTLEDGE: Thank you very much. I
15	appreciate it.
16	CHAIRPERSON REITH: Thank you so much and best
17	of luck with your effort. And I hope you have
18	ongoing conversations about the conversion charter
19	and school of innovation processes, as you were
20	saying, a longer-term framework.
21	SUPT. RUTLEDGE: We will. Thank you.
22	CHAIRPERSON REITH: Wonderful.
23	A-5: DISTRICT EXTENSION REQUEST FOR WAIVERS GRANTED TO OPEN-
24	ENROLLMENT CHARTERS: SOUTHEAST EDUCATION SERVICE COOPERATIVE -
25	McGEHEE SCHOOL DISTRICT

1	CHAIRPERSON REITH: And then to my colleagues,
2	if you could indulge me, I am guessing this next
3	action agenda item on the McGehee School should be a
4	fairly short presentation. I'm looking down there,
5	but just because this is kind of covering a vote that
6	we took last month. So I don't know if you all feel
7	you will would you rather we entertain this motion
8	before or after lunch?
9	MS. ZOOK: Before.
10	CHAIRPERSON REITH: Before, that's what I
11	thought. Okay. But may I infer that it may not take
12	the full 20 minutes? Is that correct?
13	MS. EOFF: Seven.
14	CHAIRPERSON REITH: Okay.
15	MS. EOFF: Seven minutes.
16	CHAIRPERSON REITH: Okay. We're going to hold
17	you to it. No, I'm joking. But, no, legally you
18	have 20, but just for the purposes of logistics and
19	lunch.
20	So, Ms. McLaughlin, if you'll introduce for us
21	Action Agenda Item A-5 in regards to the McGehee
22	School District.
23	MS. McLAUGHLIN: Okay. We do have
24	representatives from the McGehee School District and
25	Southeast Co-op appearing before the Board with a

petition for extension of their waivers. The rest of 1 the Southeast Co-op received their extension renewals 2 in February. The topic is covering only teacher 3 licensure. Their request does expire on June 11th 4 and they are requesting for five years. We have 5 Thomas -- Superintendent Thomas Gathen from McGehee 6 7 School District and Karen Eoff, Southeast Co-op 8 director. 9 CHAIRPERSON REITH: Thank you so much. And for both of you if you may kindly raise your right hand, 10 and anyone else that's wanting to offer testimony 11 12 today. Do you swear or affirm that the testimony 13 you're about to give shall be the truth, the whole truth, and nothing but the truth? 14 15 (ALL SPEAKERS ANSWERED AFFIRMATIVELY) CHAIRPERSON REITH: Thank you. 16 If you could kindly state your name and title 17 18 for the record and you may proceed. MS. EOFF: Karen Eoff, director of Southeast Co-19 20 op. 21 And as we appeared before you on February 9th 22 without McGehee, I gave you a long rationale of why; 23 I'm going to summarize that briefly, very briefly. 24 In the Southeast Co-op and McGehee School 25 District the demand for teachers now still far

exceeds the supply and because of this our mission is 1 still the same, to put a highly qualified teacher in 2 every classroom. That's our single most important 3 However, that challenge, we have several 4 5 roadblocks. Our first year of waivers for Act 1240 teachers has provided to be a pathway to grow our 6 7 It's the best device that we have. McGehee own. 8 School District hired 18 teachers last -- this year, 9 12 were fully licensed, 6 were Act 1240 teachers. All 6 are enrolled or have been enrolled in a 10 11 nontraditional or other pathway; 4 of those now meet all regulations for licensure; 2 are still working on 12 13 licensure but they intend to complete their licensure; all 6 have completed ProEthica training 14 15 online and at their district; all 6 have a support 16 coach at the Co-op and also have a mentor in the school district that is working intently with them. 17 18 This waiver has allowed us again to have a supply pipeline like no other. We still have provided the 19 20 MAT program and other programs; we have provided them 21 with a supply of teachers that they are delighted to 22 The UAM program Masters in Arts have went from have. 23 70 last year to 123 completely enrolled and 23 more 24 that are in the process, so we are providing teachers 25 to these programs. We're also providing additional

support at the school, both financially and instructionally. McGehee School District does something quite unique: they pay \$2500 a year for two years to help the teachers afford to get in the MAT program; they also pay Praxis fees in hardship circumstances; they also reimburse teachers for license. They are doing everything financially they can at that district to support these teachers. It's very plain that we support these college-educated but non-licensed teachers into becoming fully licensed teachers. We want them to enter our workforce; we want them to stay with us; we want them to be teachers for 25 to 28 years more, or 35, if they so McGehee School District is doing everything choose. they can to recruit because we will always take a fully licensed teacher first. We are only doing this in our hardship areas and when we are in hardship. They recruit everywhere that it's possible. on -- they went to ASU, UAPB, SAU, UAM, ATU, and to the co-op recruiting fairs. We are doing everything we know to do to find teachers and maintain them in our classrooms.

So we would please ask your most consideration for continued waivers under Act 1240, and we will do everything within our power to get these teachers

licensed.

CHAIRPERSON REITH: Thank you. And it was 7 minutes, so that was very well timed. Thank you so much, but you do have additional time. And I don't know if -- Mr. Gathen, if you had wanted to say a few words? I know you stood up and offered -- raised your hand for the possibility.

SUPT. GATHEN: Yes. First of all, I want to thank the Board for your considering granting this extension of these waivers. I'll share with you that we did in fact have six waivers granted as a result of your action last year. We continue to encourage, support and expect these waiver teachers to meet full certification requirements. We're providing them with the support that they need, both within the individual school and district-wide. Consequently, as Mrs. Eoff stated, 4 of those 6 teachers that were granted waivers have already met licensure requirements, and we will continue to work with those who have not to insure that they do as well. However, we expect to have to fill one to two positions with non-certificated individuals in this upcoming year. And in anticipation of that, I pray for your support and your passage and granting us this extension of this waiver.

	99
1	CHAIRPERSON REITH: Thank you so much, Mr.
2	Gathen.
3	So, Ms. McLaughlin, if you could kindly confirm
4	that there's no opposition signed up.
5	MS. FRENO: There is none.
6	CHAIRPERSON REITH: There is none. Okay. Thank
7	you, Ms. Freno, for confirming.
8	Any closing remarks? Otherwise, I'll open it up
9	to questions and comments from the Board.
10	Okay. Questions and comments or a motion from
11	the Board?
12	MS. NEWTON: I move to approve the waiver.
13	DR. HILL: Second.
14	CHAIRPERSON REITH: Motion made by Ms. Newton,
15	seconded by Dr. Hill. All in favor?
16	(UNANIMOUS CHORUS OF AYES)
17	CHAIRPERSON REITH: Any opposed?
18	Motion carries unanimously.
19	Thank you all so much. I'm glad we could
20	squeeze this in before lunch.
21	Yes, Ms. Zook.
22	MS. ZOOK: I wonder if we could negotiate to get
23	you to stay on?
24	SUPT. GATHEN: Stay on?
25	MS. ZOOK: Yeah.

	100
1	SUPT. GATHEN: It's not a great possibility.
2	MS. ZOOK: Well, this is a negotiation; right?
3	SUPT. GATHEN: But it is a possibility.
4	MS. ZOOK: Thank you for your service.
5	CHAIRPERSON REITH: Yeah, thank you. And thank
6	you for pointing that out, Ms. Zook. On behalf of
7	all of us, thank you for your leadership, both of
8	y'all, for down in southeast. Thank you.
9	SUPT. GATHEN: Thank you.
10	CHAIRPERSON REITH: So with that, we are going
11	to adjourn to lunch until 1:30 p.m.
12	(LUNCH BREAK: 12:48 - 1:34 p.m.)
13	CHAIRPERSON REITH: Good afternoon, everyone.
14	We will be reconvening the action agenda of the
15	Thursday, April 13th meeting of the State Board of
16	Education.
17	A-6: CONSIDERATION OF THE CHARTER AUTHORIZING PANEL'S DECISION
18	OF OPEN-ENROLLMENT PUBLIC CHARTER SCHOOL AMENDMENT REQUEST:
19	ARKANSAS CONNECTIONS ACADEMY
20	CHAIRPERSON REITH: We left off, for those of
21	you who are just joining us this afternoon, on Action
22	Agenda Item A-6 from this morning in regards to the
23	Charter Authorizing Panel's Decision of Open-
24	Enrollment Public Charter Schools, and this one
25	specifically in regards to the amendment request from

	101
1	the Arkansas Connections Academy.
2	Ms. Perry, you are recognized.
3	MS. PERRY: Yes. Virginia Perry with the
4	Arkansas Department of Education's Charter Unit. On
5	the phone we have Ms. Darla Gardner representing
6	Arkansas Connections Academy.
7	CHAIRPERSON REITH: So with that, Ms. Perry, if
8	you could kindly remind us of this procedure. At
9	this juncture it's just whether we choose to affirm
10	or deny?
11	MS. PERRY: At this juncture it's just whether
12	you choose to affirm or review or not.
13	CHAIRPERSON REITH: That's what I thought, Ms.
14	Perry. Thank you for the affirmation.
15	And, yes, Ms. Davis.
16	MS. DAVIS: You either review or not review.
17	MS. PERRY: Yes.
18	CHAIRPERSON REITH: Thank you. Thank you for
19	the precision with the wording, review or not review.
20	So with that, I open it up to my colleagues for
21	any questions or clarifications to get to a motion on
22	a decision to review or not review.
23	If there are none, then I would entertain a
24	motion.
25	DR. BARTH: I move not to review.

MS. DEAN: I move to not review.

25

	103
1	MS. ZOOK: Second.
2	CHAIRPERSON REITH: Motion made by Ms. Dean,
3	seconded by Ms. Zook. All in favor?
4	(UNANIMOUS CHORUS OF AYES)
5	CHAIRPERSON REITH: Any opposed?
6	Motion carries unanimously.
7	A-8: END-OF-SEMESTER REVIEW OF OPEN-ENROLLMENT PUBLIC CHARTER
8	SCHOOLS IN THE INITIAL YEAR OF OPERATION: ARKANSAS CONNECTIONS
9	ACADEMY AND FUTURE SCHOOL OF FT. SMITH
10	CHAIRPERSON REITH: And, finally, Action Agenda
11	Item A-8, the End-of-Semester Reviews, and I believe
12	it's of the Arkansas Connections Academy and Future
13	School of Fort Smith.
14	Ms. McLaughlin.
15	MS. McLAUGHLIN: Yes. Data are provided for
16	this item to meet the requirement of Arkansas Code
17	Annotated 6-23-406 that requires the Department of
18	Education to conduct an end-of-semester review of
19	each open-enrollment public charter school in its
20	initial school year of operation and report to the
21	State Board of Education on the charter school's
22	overall financial condition and condition of student
23	enrollment. And in your packet you have the end-of-
24	semester reports for both Arkansas Connections
25	Academy and Future School of Fort Smith.

	104
1	CHAIRPERSON REITH: Thank you, Ms. McLaughlin.
2	Any questions from the Board?
3	MR. BRADBERRY: Madam Chair, I think we have Ms.
4	Gardner back on the line with and Ms. Bale, I
5	believe it is. If you're joining us for the charter
6	review of item number 8, could you please identify
7	yourself?
8	SUPT. FLANAGAN: Yeah. This is Trish go
9	ahead.
10	MR. ADAMS: Bryce Adams, state relations for
11	Connections Education.
12	MS. FLANAGAN: Trish Flanagan, superintendent,
13	Future School of Fort Smith.
14	MS. GARDNER: Darla Gardner, school leader,
15	Arkansas Connections Academy.
16	MR. BRADBERRY: Thank you.
17	CHAIRPERSON REITH: Thank you. Thank you, Mr.
18	Bradberry.
19	And then with this, Ms. McLaughlin, if you could
20	kindly clarify the motion that you'll be seeking from
21	the Board. Obviously, I don't want to pressure our
22	colleagues in that direction, and we'll entertain
23	questions or comments, but I'm assuming here it's
24	just whether to accept the review. Would that be
25	correct?

1	MS. McLAUGHLIN: Yes. According to
2	historically, we provide an end-of-semester report.
3	We will again provide an end-of-the-year report, in
4	either June or July. And the request is for you to
5	accept or not accept the report.
6	CHAIRPERSON REITH: Okay. Thank you. Thank you
7	for clarifying.
8	So with that, any questions or comments from the
9	Board?
10	Yes, Ms. Zook.
11	MS. ZOOK: I have a is Mr. Rogers in the
12	room? I wondered if I should be concerned about the
13	red ink on Future School?
14	COMMISSIONER KEY: We can get him.
15	MS. ZOOK: Or you may know the answer.
16	MS. McLAUGHLIN: We do have representatives from
17	APSRC that can address that, and also I have had an
18	explanation from the Finance Department that I can
19	address as well.
20	MS. ZOOK: Okay. Would you do that, please?
21	MS. McLAUGHLIN: Okay. Basically, this report
22	is pulled it was pulled on February 28th. And not
23	to step on the toes of the representatives from
24	APSRC, but a lot of times the revenues are not
25	entered until after the first of the month, and so I

think that's what that is reflecting. This is a live document; it is based on the personnel in the district they are entering into eFinance and it is -- the numbers are always going to be changing.

MS. ZOOK: Okay. That is very helpful. Thank you.

CHAIRPERSON REITH: Did anyone want to elaborate from Future School?

MS. FLANAGAN: It's difficult for me to hear exactly. Is it appropriate for me to chime in right now?

CHAIRPERSON REITH: Yes. Yes, it would. We're just on the question around the -- as Ms. Zook -- the deficits, or the red ink, as she phrased it, in regards to your first semester balances.

MS. FLANAGAN: Right. My -- basically, in speaking with our financial manager, he basically -- he explained this to help me understand that, you know, as I think was mentioned, if I heard correctly, the report was generated by the Department on February 28th, before we had posted any revenue in APSCN. And the major swing in fund balance was -- is a hundred-percent attributed to the report being generated before we posted the revenue in closing out the month via our accounting firm. But we've never

	107
1	had a negative account balance in our bank account or
2	on the books.
3	CHAIRPERSON REITH: Thank you. So that's just
4	an affirmation then of Ms. McLaughlin. Yes.
5	And just to confirm for the purposes of our
6	court reporter, that was Ms. Flanagan, correct,
7	speaking on behalf of Future School of Fort Smith?
8	MR. BRADBERRY: (Nodding head up and down.)
9	CHAIRPERSON REITH: Okay, correct. Thank you,
10	Mr. Bradberry, for confirming. Thank you.
11	Any additional questions or comments?
12	Otherwise, I'll entertain a motion from the Board.
13	MS. NEWTON: I move to approve.
14	CHAIRPERSON REITH: Thank you. Do I have a
15	second?
16	DR. BARTH: Second.
17	CHAIRPERSON REITH: Okay. Motion made by Ms.
18	Newton, seconded by Dr. Barth. All in favor?
19	(UNANIMOUS CHORUS OF AYES)
20	CHAIRPERSON REITH: Any opposed?
21	Motion carries unanimously.
22	B-1: CONSIDERATION OF ARKANSAS BETTER CHANCE 2017-2018 RENEWAL
23	GRANTS
24	CHAIRPERSON REITH: We are now moving on to the
25	afternoon portion of the action agenda. So Action

1	Agenda B, Item Number 1, Consideration of Arkansas
2	Better Chance 2017-2018 Renewal Grants.
3	MS. McKINNEY: Thank you. I'm seeking your
4	approval for the new grants for the 2017-18 school
5	year. This is a renewal of the previous programs
6	that are in good-standing.
7	CHAIRPERSON REITH: Okay. Thank you, Ms.
8	McKinney.
9	Any questions or comments from the Board?
10	DR. BARTH: Ms. Reith
11	CHAIRPERSON REITH: Yes, Dr. Barth.
12	DR. BARTH: And this may be for the
13	Commissioner. So the additional funds for ABC, the
14	\$3 million right that was the final amount.
15	And how will that play out in the year ahead in terms
16	of you know where are we going to see those
17	numbers? I think it was primarily for enhanced
18	quality, especially pay, rather than new seats;
19	right?
20	MS. McKINNEY: That's correct.
21	DR. BARTH: And so at what point are we really
22	going to see that money flow into the system here?
23	MS. McKINNEY: Well, I'm waiting for guidance
24	from the Department of Education and so waiting to
25	I would assume after July 1.

COMMISSIONER KEY: With that revenue 1 stabilization just passing, you know, we'll start 2 that process of working with Early Childhood to 3 determine how that looks. I think most -- a lot of 4 5 that information is going to come from Early Childhood as to how we, you know, will allocate that, 6 7 what the mechanism will be to getting that out to 8 make those quality improvements. So it's just 9 something that we haven't gotten to yet, but we'll be 10 bringing it closer to the fiscal year. DR. BARTH: Okay. And so we would see a later 11 12 -- probably something along these lines later on that 13 would just be enhancements to existing programs; is that probably how it's going to --14 15 COMMISSIONER KEY: Well, maybe enhancements, but 16 there may be funds spent for public and professional development. So, actually, Tonya Williams and I, we 17 18 have not had those conversations. I'm not sure if they've had those with Ms. Williams' team, with our 19 I don't know if they've happened yet. 20 21 still kind of new, but we'll keep you posted on where we're headed with those. 22 23 DR. BARTH: Great. Thanks. 24 MS. McKINNEY: We are thinking that it would be 25 -- you know -- we would target those districts who

1	have individuals that have been meeting the minimum
2	criteria for staff qualifications. And then also
3	other professional development to help individuals
4	accomplish getting that degree or that training, as
5	well as having even some for local innovations, like
6	transportation or something to meet those hard-to-
7	reach students.
8	DR. BARTH: Thank you.
9	CHAIRPERSON REITH: Thank you.
10	Any additional questions or comments for Ms.
11	McKinney?
12	Okay. With that, I'll entertain a motion.
13	MS. NEWTON: Move to approve.
14	CHAIRPERSON REITH: Thank you, Ms. Newton.
15	DR. BARTH: Second.
16	CHAIRPERSON REITH: Do I have a second? Thank
17	you, Dr. Barth.
18	Motion made by Ms. Newton, seconded by Dr.
19	Barth. Sorry, all, for the post-lunch lull. I think
20	we're getting our energy back. Maybe we need a round
21	of coffee here.
22	All in favor?
23	(UNANIMOUS CHORUS OF AYES)
24	CHAIRPERSON REITH: Any opposed?
25	Motion carries unanimously. Thank you.

B-2: RECOMMENDATION OF THE ARKANSAS CHILD DEVELOPMENT AND EARLY LEARNING STANDARDS, BIRTH THROUGH 60 MONTHS

CHAIRPERSON REITH: Moving on to Action Agenda

Item B2, Recommendation of the Arkansas Child

Development and Early Learning Standards, Birth

through 60 Months. Ms. McKinney, you're once again

recognized.

MS. McKINNEY: Thank you. Hopefully you each have had an opportunity to go online and review the I will say that it was quite a joint effort comprised of individuals from the Department of Ed., interest groups, school-based programs, private programs, Head Start. I don't think many people were left out. Additionally, we did hold public hearings around the state to get review and comment, brought them back, looked at, revised. definitely wanted to make sure that there was a strong alignment between what happens in preschool education, as children get ready to transition into kindergarten and on up, and so we made sure that those different skill-sets were involved in putting this into place. Additionally, after we received all the review and comments then we vetted each domain out to experts throughout the nation to get their review and comment. So I feel like that we have made

1	a very concerted effort to make these as
2	comprehensive as possible in preparing children for
3	their next environment.
4	With that, I bring them to you because we would
5	like to know that you (1) have reviewed them, and (2)
6	that you would consider them for approval.
7	CHAIRPERSON REITH: Thank you, Ms. McKinney.
8	This is a very exciting development and impressive
9	document, without a doubt.
10	To my colleagues: questions and comments?
11	DR. BARTH: Just a quick comment, I mean,
12	following on yours. I mean, this is really exciting
13	in terms of really connecting back to the time young
14	folks arrive in this world, how those earliest months
15	really connect to their later learning in a really
16	thoughtful way. I thought this was not only really
17	fascinating but also I think very important.
18	MS. McKINNEY: Thank you.
19	CHAIRPERSON REITH: Thank you.
20	Yes, Commissioner.
21	COMMISSIONER KEY: Madam Chair, I would just say
22	that I think this is an example of how our agencies,
23	not just these two agencies but our agencies
24	Higher Ed. and Career Ed are working together to
25	align and streamline our approach so that there's no

gap between what Early Childhood is thinking and doing versus K-12, and then as we get into Career Ed. and Higher Ed. opportunities. So that work is ongoing. And really this is a -- that type of work is a critical component of our SPM, our Strategic Process Management, and it's our strategic plan to continue these types of partnerships.

And also, you know, part of what we need to do is communicate this. It's not just going to be communicated to early childhood centers and ABC programs, but also to the kindergartners and elementary level so that they know what's expected from the programs that feed their programs. So, as we know, feeder patterns is something that is critical in the work we're doing and we're putting more focus on that.

And, Ms. McKinney, thank you for -- and the whole team, Early Childhood, for letting us be at the table and be partners in this and working together.

MS. McKINNEY: Thank you. It is currently being translated into Spanish, and the University of Arkansas is working with us and is getting ready to roll it out across the state and providing training and technical assistance.

CHAIRPERSON REITH: That's wonderful. You just

spoke to my heart there with the Spanish translation.

And then I guess that lends me to a question: who is the intended audience then with the training?

MS. McKINNEY: Well, of course, the first training would be to those individuals, like with the ABC programs, Head Start, the various communities that are serving our early childhood program, because this is a move to transition from the frameworks that have been used into these new standards. And then, of course, as Commissioner Key indicated, also to get kindergarten teachers, parents -- I mean, I'm hoping that it will branch down to a number of different individuals.

CHAIRPERSON REITH: That's fantastic. Wonderful.

Ms. Zook.

Oh, sorry, Commissioner.

COMMISSIONER KEY: Just to say that if you look at the presentation, you know, how these standards are presented, it's easy -- they're easy to read; they're full graphic in nature; you know, it's not just words on paper. You know, you can actually take the words and the expectations, align them with the age range and, you know, the different components of development. And it's very user-friendly; I think

the audience could be anyone. I think any parent could look at this and understand what it's saying, which I think is a big plus for a government document. We don't have a strong history of doing it in an easy-to-read format.

CHAIRPERSON REITH: Well, and also that this acknowledges then the whole-child approach, right, and that it's not just what's taught in school but then also at home and empowering parents from all walks of life to be able to be part of that. That's amazing. Talk about innovation in action.

Yes, Ms. Zook.

MS. ZOOK: Yes. I'm especially pleased to see that you're looking at the whole child, not just the intellectual or training academically. I'm thrilled that all the agencies are working together. I think that this will then help provide the data that we're wanting about how long does it take effect, how many years does it make a difference in a child's life. And I was pleased to see that a third of the three-year olds in the state and two-thirds of the four-year olds in the state are enrolled actively in a pre-K program. I guess the thing that we will have to rely on you all to tell us is -- and then the districts that are running their own pre-K, is there

2

3

4

5

6

7

8

9

10

11

12

13

14

15

16

23

24

25

a difference from kids who come from a program, a pre-K program that isn't being run by the district and those that are being run? Because I know that without the data -- in my mind, I would think if you're in the building with the elementary and the kindergarten teachers and everybody is talking in the lounge and making friends and going on that that might be something that could make even more difference, even if we see difference through second and fourth and high school. But is there a more profound difference when the district runs the program versus the kids that come in from different -- and I know I live in a very small town, in Melbourne, but we have three different kinds of pre-Ks there, as well as the Head Start and the threeyear old program.

So I think this is a terrific start in the right direction and will help those who make these financial decisions have a -- as Ms. Chambers is always reminding us, how are you going to measure success. So I really appreciate that and thank you very much.

MS. McKINNEY: Thank you.

CHAIRPERSON REITH: Just a final query on my part. I know we've talked about, you know, cross

1	agency collaboration here in Arkansas, but I'm
2	assuming and it looks like the Kellogg Foundation
3	helped pay for this, but there was also some national
4	best practices that were taken into account as part
5	of this. Was this
6	MS. McKINNEY: Yes.
7	CHAIRPERSON REITH: part of like a broader
8	national maybe effort, as well?
9	MS. McKINNEY: Yes.
10	CHAIRPERSON REITH: Okay.
11	MS. McKINNEY: In fact, we have a list of
12	different experts in each one of the domains that we
13	vetted it out to to give us feedback and comments.
14	And then we took those comments and analyzed it and
15	made decisions in how we would incorporate them into
16	the standards. So, yes, it was definitely vetted out
17	there across the nation.
18	CHAIRPERSON REITH: Thank you, Ms. McKinney.
19	Any final questions or comments? Otherwise, I
20	will entertain a motion from the Board.
21	MS. ZOOK: I move that we move forward with
22	this, accept this, and compliment them for the things
23	they're doing.
24	Sorry, Ms. Coffman.
25	DR. HILL: Second.

	118
1	CHAIRPERSON REITH: On the complimenting too;
2	right?
3	DR. HILL: Yes, yes.
4	CHAIRPERSON REITH: Okay. Just checking.
5	Motion made by Ms. Zook, seconded by Dr. Hill.
6	All in favor?
7	(UNANIMOUS CHORUS OF AYES)
8	CHAIRPERSON REITH: Any opposed?
9	Motion carries unanimously.
10	Congratulations, and thank you.
11	MS. McKINNEY: Thank you very much.
12	CHAIRPERSON REITH: Please continue to report
13	back how the rollout goes.
14	MS. McKINNEY: We certainly will.
15	CHAIRPERSON REITH: Thank you.
16	B-3: CONSIDERATION OF WAIVER REQUEST FOR TEACHING LICENSE -
17	MS. GALE RICHMOND
18	CHAIRPERSON REITH: Moving on to Action Agenda
19	Item B-3, Consideration of the Waiver Request for
20	Teaching License by Ms. Richmond. Ms. Harris-Ritter,
21	you are recognized.
22	MS. HARRIS-RITTER: Thank you so much. Just
23	before I step up here and really talk to y'all, I'd
24	like to hand these handouts up to y'all. There you
25	go; thank you.

(WHEREUPON, Exhibit One (1) to item B3 was marked for identification and entered into evidence.)

MS. HARRIS-RITTER: I would like to introduce you to Gale Richmond. She is here from Forrest City; she's an elementary school teacher there, and she has submitted a written request for a waiver. She applied to renew her license and the Department notified her that she was disqualified from holding a teaching license under Arkansas Code Annotated 6-17-410, which means she had a disqualifying offense. She is representing herself.

The handout that I have given all of you are documents that she provided to us, and the Department is recommending that you grant the waiver.

I can give you just a little bit more background and then if you have questions she could be sworn in and she could answer them.

She's been an elementary school teacher in

Forrest City for almost a full 29 years, and this
incident occurred in June of 2004. She was married
to someone who was convicted of sexual assault and
she was found by -- her name was placed on the Child
Maltreatment Registry because she left her children,
her two daughters, at home with their father and an
incident occurred. It's been 13 years since this

1	incident. She and both of her daughters did a year
2	of work with DHS, from 2004 to 2005. She is she
3	has no criminal history and she has done a number of
4	courses; evidence of that has been provided to you.
5	And if you have any questions of her oh, I know.
6	There are employment references and character
7	references. The employment references were provided
8	by Willie Doby, who was her principal and supervisor
9	for 20 years at Central Elementary School, and
10	DeAngela Graham, who is her current assistant
11	principal. She also has letters of support from her
12	twin daughters, her pastor, and her sister.
13	And so now if you would like to swear her in and
14	ask her anything
15	CHAIRPERSON REITH: Ms. Richmond, if you would
16	raise your right hand. Do you swear or affirm that
17	the testimony you're about to give shall be the
18	truth, the whole truth, and nothing but the truth?
19	MS. RICHMOND: Yes.
20	CHAIRPERSON REITH: Thank you, Ms. Richmond.
21	And would you like to give opening remarks or
22	would you like us just to answer you ask you
23	questions?
24	MS. RICHMOND: You can ask questions.
25	CHAIRPERSON REITH: Okay. So I think my

colleagues right now are taking a moment in reviewing 1 these documents, but if anyone does have any 2 questions for Ms. Richmond --3 Ms. Zook. 4 MS. ZOOK: With my other hat of being a CASA 5 worker I will say that often when one spouse is 6 married to another and one has a True finding that 7 8 the courts often have to emphasize that you can't 9 just have your home like an ordinary home where one parent can or cannot be alone with the children, 10 11 which almost is like single-parenting with another adult in the house. So it is not unusual that this 12 13 really has to be emphasized to them, and from the sound of this letter she totally gets it and 14 15 understands and if she could go back it would be 16 handled differently. So from my CASA hat to my State Board hat, I 17 18 recommend that we take the ADE's recommendation and 19 provide the waiver. 20 CHAIRPERSON REITH: Thank you, Ms. Zook. 21 Do I have a second? 22 MS. DEAN: Second. 23 CHAIRPERSON REITH: Motion made by Ms. Zook, 24 seconded by Ms. Dean. Any discussion? Otherwise, 25 we'll do a roll-call -- okay -- or we'll do a vote.

	122
1	All in favor?
2	(UNANIMOUS CHORUS OF AYES)
3	CHAIRPERSON REITH: Any opposed?
4	Motion carries unanimously.
5	Thank you so much and congratulations, Ms.
6	Richmond. It looks like it's been a tough journey.
7	Thank you. Thank you so much. And thank you, Ms.
8	Harris-Ritter.
9	B-4: CONSIDERATION OF ACTION REGARDING THE LITTLE ROCK SCHOOL
10	DISTRICT
11	CHAIRPERSON REITH: So with that, we are moving
12	on to the last action agenda item of the day, B-4,
13	Consideration of Action Regarding the Little Rock
14	School District.
15	I will at this time ask if Ms. Freno or somebody
16	could kindly see if there was any public comment
17	written, and I know I haven't asked for it since the
18	morning. And as she's doing so, for the purpose of
19	record I am okay, thank you I'm assuming there
20	might be some value in going ahead and reading the
21	context of this, and then I'll recognize the
22	presenter, Dr. Barth, since there's not a specific
23	staff member assigned to this, as I know sometimes
24	During the March 9, 2017 State Board meeting,
25	State Board vice chair Dr. Jay Barth announced that

he would submit an action agenda item for consideration on the April State Board agenda. As per the State Board operating guidelines, Dr. Barth submitted a request to place an item on the agenda. Requests to place items on the agenda shall be received by the liaison in writing at least 20 days before the regular board meeting. State Board liaison, Ms. Deborah Coffman, received that request by email Friday, March 24, 2017.

By majority vote, on January 28, 2015, the State Board removed the local school board. In the absence of the board of directors the State Board directed the Commissioner to assume all authority of the board of directors as may be necessary for the day-to-day governance of the school district.

Dr. Barth, you're recognized.

DR. BARTH: Thank you. Thank you. Obviously, those of us who were on the State Board in the lead-up to the January 2015 vote, and those others of you who were observing it, know that that lead-up and that decision showed a very divided community in Little Rock. And those divisions over the last two-plus years obviously have only become more enhanced in many ways and we know that divided communities cannot provide the foundation for the great schools

2

13

14

15

16

17

18

19

20

21

22

23

24

25

that are needed. And so, you know, my view is that it is the responsibility of whoever -- whomever can help to begin to heal those divisions has responsibility to do so. And, of course, under the statutory authority, section (f) of the current law does give us that independent authority to consider a game plan for returning the district to local control. Obviously, the vote in May, the May 9th vote on a millage extension and the way in which the campaigns for and against that millage extension really are reinforcing these divisions. But I think it's not just about that vote, as important as it is, and I think it's a very important vote for the future of the district but I think it's a really broader issue of the divisions.

And so I had hoped to have a motion today to allow the planning process laid out in the new accountability legislation for Level 5 school districts to play out. Obviously, Little Rock and Dollarway will be immediately converted to Level 5 schools. But I also thought it was important for there to be clarity about how and when Little Rock could begin to move towards local control, with a vision for allowing Mr. Poore and a newly-elected board to really begin to take action together on

2

3

4

14

15

16

17

18

19

20

21

22

23

24

25

behalf of the patrons of the district. I think we have heard over recent months, really since the beginning of this process, that it was -- there was a desire to return to local control as soon as possible. But I think that there is -- you know -- words are important but it really is actions that are more important, and I thought that it was important for this board to consider taking that action, which we have.

I think as you all know, that didn't -- that consensus was not achieved on this and you, I think, know from the media accounts how this played out. And I want to apologize to the Board for being something of a lone ranger on this, but I think you also know that because of our open meetings law it's very difficult for us to have conversations with one another and build consensus among one another. so I made the decision to go to the Commissioner and we had some very good conversations, and I think we maybe got close but we didn't get there in terms of this kind of clarity about the future. The item was already on the agenda and so rather than pulling it off, I decided to leave it on the agenda to present an opportunity for discussion among this board in an open meeting, since we can do that here, but also to

2

3

4

5

6

7

8

9

10

11

12

13

14

15

16

18

19

20

21

22

23

24

25

give an opportunity to the Commissioner to make whatever comments he wanted to make about it.

And so that's really all I have today. I do not have an item, but I do continue to believe strongly that this board should give clarity to this community about the future of its schools. And I think we have reached a point where whatever -- very good things have happened over the last couple of years and I think we would be -- I think those who say nothing good has happened over the last couple of years are missing a lot about the improved fiscal practices of the district and a variety of other things that have happened in the district. But I think there reaches a point where for a district to really take the next big step the community has to be fully involved and we know that an elected school board is a very important part of that community engagement. those are my comments.

CHAIRPERSON REITH: Yeah, thank you, Dr. Barth.

And in large part because of open meeting laws I also felt strongly about keeping this agenda item in place because this is an opportunity for us now to have a discussion here publicly together. And the Commissioner had indicated as well that in preparation for this conversation and knowing this is

of interest had prepared some remarks as well to hopefully elucidate this conversation. And then we know that members of our community have signed up to offer public comment, and we did vote to hear public comment earlier today and so we'll allotting a space for that as well.

I do want to recognize that we've had at least I think three elected officials here today. I apologize; I know normally in transition moments we recognize them. They are signed up for public comment, but I do want to thank profusely our Senators and Representatives for being here, and we'll recognize them here in short turn in regards to their remarks.

But as a point of hopefully framing -- and I would assume for the public as well probably wants to hear from the Commissioner. I know that when he expressed to me last night that he had comments I'm obviously eager to hear that as a frame, a point of reference for this conversation. So, Commissioner, with that you are recognized.

COMMISSIONER KEY: Thank you, Madam Chair.

First, I just want to say Dr. Barth is correct; we had some very good conversations about this in the last couple of weeks leading up to today. Just I'll

2

3

4

5

6

7

8

9

19

20

21

22

23

24

25

say what I've said before: I and the Department are absolutely committed to returning Little Rock School District to local control. And as a matter of fact, in some of the conversation we had in talking about our legislative package, we believe that Act 930, which is the new accountability law that Dr. Barth mentioned, when compared to ACTAAP, provides the Department with more tools to have an expedited and methodical process for returning local control. So I wanted to share with you -- now that that bill has passed and has become Act 930, I want to let you see the timeline. Now this isn't a timeline for calling elections or anything else; this is simply a timeline for this bill or this law and how you all as a board fit in the process of this transition from ACTAAP to the Arkansas Educational Support Accountability Act.

so it became Act 930 in April. And as we've mentioned on some other laws that are pertinent to conversations we've had today, this law will go into effect the first of August, maybe July 31st, but right there in that timeframe. So as you see there under August, the Arkansas Educational Support Accountability Act law becomes enacted. And at that point the transition language in that bill requires that we work with the districts that are under state

2

23

24

25

authority and all districts that have schools in academic distress, Focus or Priority status, to develop a transitional support plan, because the supports that are needed in those schools need to continue -- the federal ESSA and directives from the Federal Department. The U.S. Department of Education has said, you know, the states cannot just leave those schools to their own ends or to their own devices; we must continue supporting those that have been identified under the previous federal accountability system. So we put all of those into this transitional plan so that we can begin working with those schools and those districts. So because that law goes into effect in August, that's really the time where we will be able to begin working with them on those plans.

The two districts that are currently in state takeover, Dollarway and Little Rock, will be moved to Level 5 intensive support. And then the process for exiting from state control under Level 5 intensive support, that's where that picks up. And so based on the transitional support plan, which we will have another year of data from ACT Aspire results that will be in and we'll be in the process of analyzing that data, those and any other interim assessments,

any other measures, including what we determine which 1 will be the fifth indicator under the new ESSA plan, 2 all of those pieces will work together to inform this 3 transitional support plan. And in the fall of the 4 year, after we've been able to develop those plans, 5 we'll bring those back to you for evaluation. 6 7 that point the Board will have a comprehensive picture of the systems in those districts, what's 8 9 going on based on the most recent data and based on some new data that we've not previously had before 10 us, specifically referencing school quality measures 11 like the fifth indicator that we've been talking 12 13 about under ESSA. So at that point you will be able to give us your thoughts on how to move forward with 14 15 these districts. And as it moves on past the fall, 16 as we get into the spring next year, looking at the moratorium or the pause for A-to-F will no longer be 17 18 upon us, so we will come in April; we'll be looking at A-to-F report cards again. We will continue to 19 20 review those transitional support plans. And then, 21 as you see, this timeline moves us out into August 22 and September, the beginning of the next school year, 23 and there are some important benchmark dates there 24 for ESSA -- and we'll talk a little bit more about 25 that in the work session. But as it relates to this

conversation, you know, the Department is bound by
the language that says all issues that led to
academic distress must be addressed and those schools
must be in academic distress.

Act 930 takes away academic distress. It puts in a system where you have what the ForwARd Arkansas report would have referred to as pre-academic distress; depending on what's going on in that district, levels of support that meet the needs of those districts in a more comprehensive fashion than what we've been looking at before.

So that's, you know, just giving you some information on the timeline that we are working in in the Department, that we'll be working with Mr. Poore, Mrs. Warren down at Dollarway, and the other districts that are currently Focus and Priority -- have Focus and Priority schools.

The other thing that I wanted to talk about a little bit was you all may have been approached or asked questions about the bond issue. And I'm not going to sit here and give you a speech for or against or anything else; just to tell you that those questions that have been raised to me was concern about how the money would be used; if it was to pass, then the sum notion that the district wouldn't use

1 the money the way that it was outlined. And I can tell you that, you know, you all have been here 2 through much of the time that we had Helena-West 3 Helena under state control, PCSSD under state 4 control, and I'll just remind you that during that 5 time we had bond refinancing that took place, none 6 7 that went to the voters but significant dollars that were recouped by refunding and refinancing bonds. 8 9 you look at Helena-West Helena using those funds to 10 build a new elementary school right now, we, you know, used those funds -- worked with the district so 11 they could use those funds for their intended 12 13 And the same way with PCSSD; you look at purpose. the construction going on with Mills High School, you 14 15 look at the construction going on at Robinson Middle 16 We worked with Dr. Guess to create the plan, and it's their plan. Same thing with LRSD: Mr. Poore 17 18 and his team have identified a list of projects; those projects will be funded. You know, it's the 19 Department and the Commissioner's commitment that 20 21 those projects will be funded according to the list 22 that they have identified based on their needs, and 23 they have a plan, a master plan that identifies 24 those, so just to say that we're committed to using 25 the funds for those intended projects in that plan.

Madam Chair, if the board members have any questions I'll be glad to tackle those. But that's -- those are the comments that I wanted to add in response and in conjunction with Dr. Barth's agenda item today.

MS. ZOOK: I think it might be helpful too if you will give sort of a quick review of Lakewood [sic] as to why the State Board is involved in the education of the kids throughout the state of Arkansas, and so for the people who weren't involved in education at the time might understand how these steps and structures and laws came about to begin with.

enough time to go through that history. But in a nutshell, you know, the Lakeview decision, one of the components, the Supreme Court said that adequacy, you know, must -- the State must provide -- it's the State's duty to provide an adequate, efficient and equitable system of education for the whole state. And in that ruling they also made it clear that state's can certainly delegate that authority to local districts, which we have done for decades. But in the absence of those local boards, local entities, local patrons meeting the needs, then it's still the

2

6

7

8

9

10

11

12

13

14

15

16

17

18

19

20

21

22

23

24

25

State's responsibility. So that was clearly stated in Lakeview. And at the time this decision was made, at the time y'all made the decision on Dollarway, you know, you were acting and the Board was acting in conjunction with that duty of the State, because statutorily this board is authorized to do that, so -- and then to make sure that the corrections have taken place so that there's ongoing opportunities for And that's been our goal in working with success. any of the districts in state takeover that the decisions that are made provide the best chance of success moving forward for the district. And we've had districts that came back, and you look at Helena-West Helena would be one of those, but the way we have worked with them this last time you could see that their chance for success is much greater than what we gave them the last time. And we have learned from some of the challenges that we faced with other districts in returning local control -- and that's what has informed Act 930.

So a lot of what we have learned through the previous districts and working with those has gone straight into this act to help us develop a better process for the state meeting its constitutional obligation, at the same time respecting and

recognizing the importance of, as Dr. Barth said, that local element of involvement.

19

20

21

22

23

24

25

Does that help? Does that -- okay.

MS. ZOOK: No, I just thought it would be helpful to remind us.

CHAIRPERSON REITH: Thank you, Commissioner.

And I think the way I want to approach the rest of this action agenda item and conversation right now is to hear from the public as well, both in part, as Dr. Barth had shared -- I know I have felt as well obviously community voice being a part, as you were just even reiterating yourself, Commissioner, at the end, an essential part to the assurance of fair and equitable. At the end of the day, the community has to perceive it as fair and equitable for it indeed to be fair and equitable. And so I would like to recognize the community members who have joined us here today and then open it up to broader discussion and questions and conversations. I'd like to see if we can walk away, even though in lieu of a motion, at the very least with maybe some items that we can do, something that we can offer here in terms of moving forward.

And with that, the first that we have up for public comment is Senator Joyce Elliott. Senator,

you're recognized.

19

20

21

22

23

24

25

Thank you, Madam Chair, and SENATOR ELLIOTT: good afternoon, Members. I've talked to you before, and I think every time I've come here, about the importance of and how I think it's possible for us to have a world class education system in our state. And whether our state moves to that or not I am convinced that Little Rock certainly could, but the Board is an impediment right now to our even having any ability to do that. And this is why I say so: when you took over the school district with those six out of 48 schools in academic distress, number one, that was not something you had to do, you chose to I respect that you could decide to do it. we're down to having three schools that are in academic distress and we still have the largest school district in the state under board authority. And we are not dealing just with academic distress; we're having huge decisions made in our school district at the behest of one person or two persons, with the largest school district in the state just sitting there having really no voice that is meaningful. For example, we are closing schools. And I watched the last board meeting, which I could not attend, and I know the comment was made, "That's

2

3

4

5

6

7

8

9

10

11

12

13

14

15

16

17

18

19

20

21

22

23

24

25

okay, we can close these schools; they will get over it. It's just like when we closed schools with consolidation." No, it's not. When we closed schools during consolidation it was because there were no other schools around that would provide the critical mass, so that they didn't have other options. We clearly have other options in this school district. We have the option -- for example, if we were going to close schools -- we have 48; we chose the three to close that are primarily in African American areas of this city.

This is the kind of thing that's happening to us being under State control without representation. And during the legislative session, because I knew the Commissioner's hands were tied about what he could do, I worked with Representative Clark Tucker to offer a bill that would untie the Commissioner's It was Senate Bill 274, and that bill hands. provided in addition to the Board having the authority that you have today -- you don't have to wait until August -- the authority you have today to decide to move ahead on coming up with a plan to remove Little Rock from State authority. But Senate Bill 274 had an emergency clause on it. It passed the Senate. It passed the Senate Committee, it

2

15

16

17

18

19

20

21

22

23

24

25

passed the Senate. And when it got to the House side and we were about ready to run the bill there was no opposition from the Department of Education -- and we learned the night before the Department of Education had decided that they were going to oppose the bill the night before. So with that in mind I never ran the bill, hoping that the Board would use your authority to get moving on returning this district to the people to whom it should be returned.

It is difficult for us to think about moving ahead together, thinking world class or anything else, when we are so divided. And you might say, "Well, you can just choose not to be divided." That's convenient to say as board members, but if you're living in this city or if you don't know the history of this city it's easy to say so. think you have a powerful position here and you have an awesome authority and I think you need to use that authority to do something to make sure this district knows when it's going to be made whole. We know It's just we go from board meeting to board nothing. meeting and we learn nothing about the ultimate thing you say you want to do is to return the district to the people who, quote/unquote, "own the district." It is not fair; it is not right. If somebody can

2

23

24

25

give me a defensible reason for the State having control of a school district where 94% of the schools are not -- 94% are not in academic distress; only 84% were -- when you took it up to start with were not in academic distress. Now we have 94% not in academic Make this math make some sense to me. distress. please don't extrapolate from anything that I say that I don't care about the other three schools; we do. But it is our responsibility to take care of those other three schools and you are the one entity between us and our responsibility to do what we should do. And I will remind you, as I take my seat, the only reason this board assumed authority was That's all about academic distress. That was it. the law allowed. And we have come up with all kind of reasons about the board and everything else; that things are better now. Well, I don't know if they're better now because of what was already in place, that's not an argument for me. The law is what's the argument for me and it says you took over this district because of academic distress. This is not a school district in academic distress, where 94% of the schools are not in academic distress.

So I beseech you, please follow the law and don't -- you don't have to wait until May or August.

1	The law is in place right now. We have one law at a
2	time. 930 will go into effect in August. The law
3	that we operate under right now is in effect. And
4	what this proposes to do is keep moving us down the
5	road. We keep moving we keep moving the bar. We
6	move closer to it and you move the bar, and now
7	you're going to ask us to assume authority under a
8	brand-new law. Please don't do that. Use the law we
9	have now and start the process. Thank you very much.
10	CHAIRPERSON REITH: Thank you, Senator.
11	Next on the public comment list I apologize,
12	I can't read this name.
13	SENATOR ELLIOTT: Clark Tucker.
14	CHAIRPERSON REITH: Maybe, Commissioner, can you
15	help me?
16	COMMISSIONER KEY: Michael Poore.
17	CHAIRPERSON REITH: Oh, sorry. I apologize,
18	Superintendent Poore. But if it's all right we
19	usually defer to our elected officials first, if
20	that's all right, Superintendent.
21	SUPT. POORE: I didn't even know I signed up. I
22	thought I was just signing in for being at the
23	meeting, so I signed up right in behind
24	CHAIRPERSON REITH: Well, for that, we may
25	actually call on you in a minute then. Why don't we

commit to doing that? But in the interim,

Representative Tucker please, you're recognized.

25

REPRESENTATIVE TUCKER: Thank you, Madam

Chairwoman. It's an honor to be here today. Thanks

for taking the time to listen to me.

I don't think there's very much I could say probably that you haven't already heard or that hasn't been argued to you. There's just a couple of points I want to make, the first I really feel almost silly saying because it certainly goes without saying but that is how important democracy is in the United States of America and in our society. Chairwoman, you know, mentioned a moment ago -- she apologized for not getting us up here sooner. I'm totally okay with that because I think it's important for me as someone who's elected by people in Little Rock to be here to let y'all know how important this issue is to me and to the 30,000 people that I represent. You know, right now there's no one who's democratically elected who's participating in the decisions and the direction and control of Little Rock School District. And when I converse with my constituents about it they are frustrated now; that frustration is palpable. And, you know, certainly they don't always agree with

1 everything I do at the Capitol, and that's okay. mean, that's good in a democracy. So long as the 2 majority continues to be okay with it then, you know, 3 that's okay, and they send me back. But, you know, 4 5 the reason -- when I talk about it, especially if I've done something that they don't agree with, 6 7 number one, they know -- there's really two parts to 8 a democracy. I think we always think of the first 9 one and that is they know they have input when they 10 send me to the Capitol as to the policies that I will promote. But then the second part is on the back-end 11 and that is that if I don't do what I say I'm going 12 13 to do or they do something that I disagree with then they can hold me accountable for that. And right now 14 15 when I converse with my constituents, even if they disagree with something, a decision that's made at 16 this level, people expect not to always have 17 18 everything go their way, but they also expect to have an opportunity to have input into that process and to 19 20 have accountability on the back-side. And right now 21 that is absent in Little Rock and that's what takes this feeling to a higher level, and I think that it's 22 23 important for y'all to know that. I think it's 24 important for me to be here to express that to y'all. 25 The second thing I would say is I really want to

impress upon y'all to act with a sense of urgency about the return to local control. I think if the decision today for this board -- if the Little Rock School District were not under State control right now, if we still had a school board and that decision had never taken place, and y'all were faced with a decision today as to whether to take over the district, the place it's in and the direction it's moving, I believe the answer to that would be a resounding no, that the State Board would not take over the district today given where it is and where it's headed. And I think that should really inform how you move forward with the return to local control.

And, you know, I understand how state government works; I know all about the regulatory and rule-making process. And I'm a lawyer in my day job and I have cases that last years and so I understand timelines. But in the timeline that the Commissioner passed out, you know, one of the items mentioned is that there's a transitional plan in November of '17. Well, that's two months shy of three years after district takeover -- and, you know, the people of Little Rock deserve better than that. And so I will just ask you to set hard deadlines, because if you

have a plan that's public then there can be some sense of accountability and that might give the people of Little Rock some feeling that they've had some input into the process. And so I would ask you to put together a hard plan for the return to local control and not to just act -- and the way I understand state government it generally has to operate at the pace it generally has to operate. But with this, in particular, when you've taken democracy away from a community, to act with a sense of urgency to return that democracy to that community. Thank you very much.

CHAIRPERSON REITH: Thank you, Representative.

And then we finally have Ms. Ginny Blankenship.

MS. BLANKENSHIP: Good afternoon. I was not planning to speak publicly, ever, so please excuse me for referring to my teleprompter, as I frantically typed from my heart this morning, because sometimes you need to be brave. My name is Ginny Blankenship. My comments are my own and not those of my employer or any other organization I'm a part of. I'm neither a Democrat nor Republican. I'm neither pro-charter nor anti-charter, even though I've worked for three charter schools somehow and studied them for 18 years. I'm simply here as a parent of a

kindergartner who is in school in Little Rock Public Schools, and his name is Samuel. Before he was born, my husband and I were originally zoned to Terry Elementary and Henderson Middle School when we bought our home. Now we're zoned to Fulbright, Pinnacle View, and Central High School. We hope to remain in Little Rock School District throughout our son's schooling because we still believe in public schools and we value the diversity of people and experiences our son is exposed to, just as my husband and I grew up in Pine Bluff. But as parents, we don't know what it's like to have a school board. I also want to speak on behalf of parents and students whose voices are too often unheard and do not have a financial, political or legal interest at stake in the outcome of this process.

I think that the State takeover has served as a wakeup call to many in our community, especially those who have not been as involved as we should've been before on behalf of other people's children. For me personally, I've really focused on helping Hall High School and Henderson over the past year or two. At the time I was working for the legislature and there wasn't really anything I could say but there was something I could do, and I helped get

6,000 books to Henderson and Hall High School in six months. Everybody, you know, has a role that they can play. In the meantime, I've joined every board or committee that will have me, even if they say no.

I'm on the board of VIPs now. I'm part of Bright

Futures, which Mr. Poore has brought to our district.

I'm on the Little Rock Public Education Foundation.

I'm trying to support Mr. Poore in making things

better and trying new things. I've made a lot of new friends and allies in the process that are trying to do the same and they come from all walks of life, all over our district, and I feel like we are really making progress now.

The whole district will also be helped by new legislation on reading and nonprofits and initiatives like the Arkansas Campaign for Grade Level Reading, Arkansas Kids Read, and even the Governor's own R.I.S.E. initiative. This is all very, very exciting to me and I am personally and professionally committed to doing whatever it takes to help Commissioner Key, the Governor, the Board, and ADE staff achieve success in all these measures. And yet, my district has three secondary schools that are still deemed to be distressed due to reading crises that were not addressed in earlier grades. And no

19

20

21

22

23

24

25

matter how hard our teachers, parents, and our community works at least one of those schools may still fall just below that 50% threshold for several more years, as long as the Board insists on using a standardized test score as the basis for State takeover of an entire district. But it doesn't have to be that way. I would never make excuses for poor leadership or instruction, but the reality is that when immigrant children from around the world are placed in newcomer centers, like Hall High School, many of whom still cannot read on grade levels in their native languages for many, many reasons, we are setting these children up for failure. And we are not only placing the blame on these children and their teachers at these schools, these very few schools, we are disenfranchising the entire district.

Despite what may have been good intentions by
the State Board at the start, this takeover is still
punishing me, my son, and every other child and
family in the district by taking away our local
control. And that is all that I heard at the Capitol
this session: local control and parents' rights;
local control and parents' rights.

This takeover is also driving away industries that no amount of economic development incentives

will ever come. Why would a corporation invest in a city with a school district that has been taken over by the executive branch and can't be trusted to let parents, like me and all the other great people that I've been working with across this city, take a leadership role in making things better for other people's kids, much less our economic future?

This takeover has led to a culture of distrust and animosity among the worst I have seen in 18 years of studying education policy and politics across the nation in my professional work. But on a personal level, it breaks my heart. It's breaking our community spirit.

And here's the urgency of your bravery today:
many Little Rock voters really want to support this
proposed bond refinance so that long neglected
schools in Southwest Little Rock and other
neighborhoods can finally have the facilities and the
resources that they deserve, so that we compete with
choices that parents have in other districts and
other types of schools. But so many people do not
know whom to trust anymore and I fear that it will
fail if you do not take action today.

So I'm asking you to please help heal the spirit of our schools and insure a viable economic future

for our community by releasing the district from State control, which you have the right and the power to do, giving us assurance that the bond refinance, if passed, will be used as promised in helping us to rebuild a functional skilled school board that is able to work together on behalf of other people's kids, because they are all our kids and this is our community.

Thank you for your service. I know that these are very difficult and complicated decisions. So thank you even more for your bravery, because we need to pass this bond to refinance but first we have to re-empower this community now. Thank you very much.

CHAIRPERSON REITH: Thank you, Ms. Blankenship.

And thank you all.

I have to admit, coming full circle, knowing I'm toward the end of my chairmanship and my time here on this board, I'm heartbroken on a lot of different levels. And one, and most of all, is the loss of faith in the institutions of this state and one especially that I serve on. I'm the girl that was born on the 4th of July, the one -- the daughter of an immigrant that fought to become a citizen. I believed in the democracy of this country and I believed the right people in the right positions

would make the right decisions for the better good.

And I felt that the day I voted against the takeover of local control, and I still feel it here today, feeling that in this time that I've been the chair, not being able to offer more for the community, and where I with others celebrate the progress that has been made -- because, yes, I am standing with others and agreeing that progress is made. I would be remiss in not saying as well that I feel my name is going to be forever tied to decisions that are going to go down in the history of Little Rock and Arkansas as continuing structural racism in our education system and in our community. And by that definition it is racism that is not intended.

I feel privileged to serve with all of you, and I don't feel any one of you is making decisions from a lens of wanting to hurt others. I believe that with all my heart in having had the privilege to get to know you. But I do believe you're making decisions based on a life lens that does not reflect the life lens of so many that live in this community, individuals that still remember what it meant to fight for a vote. We get that. We get to wake up every morning and take for granted that we have a vote, and that is not so many communities. And I can

tell you that with my day work as well with 1 immigrants that still feel disenfranchised from the 2 processes that we have here that is not something 3 that we can take for granted. And so we wonder --4 5 and this should be the biggest testament, how empty this hall is today. Almost every single conversation 6 7 we have had with Little Rock has been jam-packed, one way or the other, people from all sides wanting to 8 9 contribute. They have lost that much hope in us. 10 They don't even bother showing up. And I know that leading into this conversation that they just -- why 11 12 even bother. It's been a year, multiple years, but I 13 won't deny I believe folks have legitimately tried to come and sit around the table that our 14 15 superintendent, who's here today, has tried to sit 16 around the table. But I'm sorry; when every single time members of our community come forth with just 17 18 steps and they're not asking every single time local control; it's been impact studies, it's been 19 20 meetings, it's been financials right now with the 21 schools and "let's slow things down so we know for sure the districts know where this investment is 22 23 going and how the money is going to be spent." And 24 every single time you are told no, every single time, 25 you wonder why they feel everything is stacked up

against them.

And so I would like to beseech this board to -for those that did come forth and haven't given up on
us -- and maybe it shouldn't be a surprise it's our
elected officials; they're part of the system and
they want to believe just as much as I think we all
want to believe in our system. I'd like to challenge
us to try and come up with something today, something
that we can offer.

A couple of thoughts that came to mind leading up to this conversation for myself: in our own laws we talk about a state of a district, the state of the district, and us being able to report to the district how they're doing and where their progress is going toward local control. And I know this is an overall general state timeline; this is not the timeline that we've been asked for for the Little Rock School District. I think we can try. I think we can try and offer more than just a broad state timeline on this. I think we can offer them more, and we're even required to in our own laws to do so. And so I offer that one option.

And another one I offer up: it should not be lost on any of us that the 60th anniversary of the Little Rock Nine is coming up and there are -- and

this is our decision, built forever into the history of this state as part of the trajectory of that conversation, a mark that I don't think -- I know when I went to Washington D.C. and visited the National Museum of African American History -- and I wear this bracelet every day since then to remind me -- that's how Arkansas is depicted there. Our only marker in the history -- in the National Museum of African American History is the Little Rock Nine and the role that we played in segregation. We are better than that, Arkansas. We are better than that and we have more to offer than that. And so I offer when the Little Rock Nine, now eight, come to town we should sit down with them and we should understand our role in this history and have a conversation with them, for the reasons that have been suggested, that -- many of us aren't from this community, Little I know I personally was not alive at that Rock. I think all of us though have an opportunity time. here to remember where we come from and to make sure that where we're going forward is a different place than that, and I think that's something we can offer as well.

I think there's probably more ideas out there than I am smart enough to offer. I realize I am

probably not always the most educated in the room on education, and I look at Ms. Newton here who is probably the most educated in the room on education. But I like to think that all of us, heads together, our hearts are in the right place. I don't doubt But I really, honestly believe we have to do better because I don't think any of us can hold our head high, or should even be able to, knowing that folks don't trust us -- don't trust. And I know that that is not all of us, but there are elements where we have been lost in faith. And I'm a dreamer; I am. I'm a visionary; people tell me that. I like to hope for the best. Again, I think it's being born on the 4th of July, the daughter of a Marine that fought for this country and was willing to die for it. really do believe we can offer better than this.

So I open this up here to those smarter than me and to my colleagues whom our hearts are in the right place. What can we offer? But please, let's not walk away today without offering something to Little Rock and the community, please.

MS. ZOOK: I wanted to start by, first of all, commending Commissioner Key. He inherited this situation. He was not the Commissioner when we made this vote, but he has admirably and with honest

dedication to the students undertaken the assignment that we were given.

By way of background, the Academic Distress Committee met with and studied documents from the Little Rock School District. We attended or watched broadcasts of the board meetings, the local board Some of us talked with volunteers, meetings. students, teachers, parents in the neighborhood, and others who had an interest in the Little Rock School District. We then brought our concerns to the full board. After this, had public meetings and hearings with the community and testimony the day of the final vote from any and everyone who wanted to make a statement -- students, parents, advocates, elected officials, and others. We also heard input from the ADE staff who had at that point already been working within the Little Rock School District for a while.

We then took a vote and it was the majority of the vote, 5-4. All members of the Academic Distress Committee voted yes. At least one person from each congressional district voted yes. Both members who represented the second congressional district voted yes. Dr. Barth voted no, but he is an at-large member. And the majority of the African American members voted yes. There was no racism or any other

sinister motive intended; just members who had studied the facts and voted.

This was needed for the students and the stability of the district. Subsequently, the decision was held up by the State Supreme Court and the federal court that's assigned to this district, as well as the other two Pulaski County districts, for over two decades.

Little Rock School District was determined to be in academic distress because 60% of their high schools and two of their middle schools, which represents over 4,000 students, were in academic distress, as well as one elementary school. The local board was constantly at odds, from our observation in attending the meetings and watching on the live-stream. They were at odds with each other and with the superintendent. They were at odds to the point that there had been over 20 superintendents in the 30-year period. There had not been any stable leadership from either since the original law in I too am a student of democracy and fully believe in it. After the Lakewood [sic] decision -or the Lakeview decision -- sorry -- the decisions were made by the courts, which is democratically elected.

1 Once we intervened, we were made aware that it was even worse than we feared. Senator Elliott is 2 correct; the decision and the law speaks to academic 3 distress, and that's the reason we intervened. 4 20% -- 20 of the schools we discovered -- and from 5 reading the reports by ADE -- were in the bottom 10% 6 7 in the state and nine were in the bottom 5%. The 8 curriculum wasn't aligned. There were no TESS or 9 LEADS in place. The RTI process wasn't being used. 10 There were no standard lesson plans or teacher observations on a regular basis. The dyslexia 11 12 program wasn't being implemented. There were special 13 education disputes. There were no teacher collaboration opportunities. The TAGG groups were 14 15 being -- were not being systematically -systemically addressed, to the point that 17 schools 16 were Focus schools. The finances had to be 17 18 The business systems were out of date, addressed. and there were no schools of innovation, no 19 conversion charters to assist students with 20 21 apprenticeships, concurrent credit, and career prep. All of this was not written into the law. All of 22 23 this could not have prompted the Board to intervene. 24 But once you have intervened and you discover all of 25 these things you realize that the over 4,000 kids

that were in the academic distress schools and an additional 18,000 kids who were in the schools who were in Focus -- and Focus, for those of you who don't have all the terminology in your head, means that the special ed. kids, the socioeconomically challenged kids, and the Hispanic children are children that English is not their first language -- were not being served at the level they should be. And, as you heard the superintendent from Brinkley last week state, if you're a Focus school, that is a, at the school base, systemic problem.

In addition, there were over \$200 million worth of facilities needs that had been left unattended, in spite of the fact that this district has had over a billion dollars that other kids and other districts in this state have not had as a result of federal ruling. The unattended facilities needed are restrooms in eight schools, roof replacement in 11 schools, fire alarm system needs in six schools, mechanical systems need replacing in four schools, mechanical system add-on in virtually every secondary school, kitchen hoods and air systems need replacing in 20 schools, windows need replacing in 12 schools; doors, playgrounds, technology, security, parking lots all need attention in almost every school, plus

24

25

Southeast Little Rock needs, deserves and has been promised a new high school.

We returned Dollarway and West Helena-Helena too soon and then had to take them back. I think that was worse than ever giving them back to begin with. And you heard this morning the problems that are going on in Lee County because of problems. Up until the time when we had returned Helena-West Helena and Pulaski County Special School District after five years, those were the first times that you had -- or we had returned a district to local control where they kept the superintendent. But that was because we maintained control long enough to get some stability, get a community advisory board in the process and working -- and we do have that in Little If the community is so busy with adults going back and forth that the kids get lost in the focus -- and from one perspective, as you heard our chairman say, there are people who don't have confidence and trust and are hesitant to believe anything we say; then you have the other group that believes that we say and think things are better now than they were and have been for a long, long time.

I paraphrase my friend Toyce Newton who said at the time that we intervened, "If you don't get Little

Rock right, what chance does the delta have?" We have new ACTAAP, which is now called E-S-A-A, we have E-S-S-A, and we have a superintendent who's working well with the community and the advisory board, the teachers and staff, and has earned the trust of a majority of the community.

We would never vote a year or even six months out to intervene in a district, so I don't think it would be wise for us to vote six months out about returning. It won't be long until we have at least a second year in a row of the same tests, which is ACT Aspire. The only prudent thing, in my opinion -- the only responsible thing for us to do for students is get things in good academic, financial, and, lord willing, with the help of the voters, in good shape with the facilities.

I too agree, we have the 60th anniversary coming up and the thing that I'm said to the most when I talk to people who either have attended Central or those who are attending now is, "We've got to get this extension so that when the nation looks at Central High School they see a great school; they don't see a school where the restrooms don't have doors on some of the stalls, they don't see a neglected area." And I know it's a national historic

place, but, as my grandmother said, it doesn't cost much and you don't have to get permission for things to be clean and painted and able for people to look at it.

So for that reason I just wanted to be sure that we had a background of information, because some of you were not here at the time.

And to address the closings, schools have been closed in this district under local control too.

Those are management, superintendent working with the staffing, the projections. So, in fact, we had a school as soon as -- a short time ago, in 2012, that was closed and we've had many others over time for a variety of reasons. So closing schools is not something that's been unique to this district or any district just during state takeover. And thank you for allowing me that time.

CHAIRPERSON REITH: Thank you, Ms. Zook.

Although I will say, with all due respect, I don't think what makes a great school is the paint on the walls but it's the students, the families, the community, the Department, the teachers, everyone that comes together and can celebrate it. And thank you for your comments.

I guess I come back to the Board. A lot of

1	information has been shared, and my hope had been a
2	discussion. I'd love to hear from all of you,
3	especially those that weren't there at the time of
4	the takeover, but even those that were in every
5	sense. I'd like to think we can walk away more than
6	sharing information but actually offering something.
7	And, again, I offered a couple of ideas maybe around
8	this idea of a state of a district, something that we
9	can have in terms of community conversation, maybe
10	some sort of commitment around trying to even improve
11	our own historical knowledge by meeting with the
12	Little Rock Nine when they come back. But I'm open.
13	Again, these are ideas for brainstorming. We have no
14	space for brainstorming outside of in the public. So
15	before the public I offer these ideas up but would
16	love to hear more. I think at the very least we owe
17	that to the Little Rock School District to try.
18	Yes, Mr. Black.
19	MR. BLACK: I simply wanted to hear from the
20	superintendent. I've not heard him yet
21	CHAIRPERSON REITH: Yes.
22	MR. BLACK: at any time, and I'd like to hear
23	what he has to say about this.
24	CHAIRPERSON REITH: Mr. Poore, you're
25	recognized.

SUPT. POORE: Thank you and I appreciate this opportunity. Mr. Black, I hope you have heard from me in several presentations --

MR. BLACK: I have, but --

22

23

24

25

SUPT. POORE: -- and then hopefully also all over in terms of trying to get the word out about our school district, as I'm awfully proud to be the superintendent in this community and working with really great people and work with a great community.

You know, I think that, you know, one of the things that is my world when I arrived was to try to understand that, you know, when you don't have a board you have to take almost extraordinary measures to try to be inclusive and try to create collaboration and also to try to create connections. And I'm sure that I can be criticized -- and obviously even if we had a board there would be superintendents who are going to be criticized in a larger district. But I know that that has been one of my key targets was to try to be extremely inclusive, try to make sure to seek input, try to make sure to put decisions out in front of people ahead of time. And even the school closure thing is a good example of showing "here are things" and then gathering input and then modifying -- gathering

25

input, modifying. But all that being said, you know, those things -- some of those things are very tough decisions. And the opportunity to seek input and be inclusive, I know that's what I've tried to do. other thing is that it's interesting that I've always viewed myself as being an innovator and I actually don't feel like that's really been the case in this district, although some people give me credit for that of what's going on in the district. everything that has been going on in this district are things that have been discussed and talked about for a decade or more in terms of studies that have been done, and this is on things that are tightening and -- on budgets to things that needed to be done to move forward in terms of progress. And so one of the things that I felt that I needed to do was take what is in the community, what has been discussed, and try to move forward on those things. That could be things such as career paths; it could also be things in terms of what we've tried to do with reading programs; it could also be things that -- you get down into budget items. I have not brought much new to the table. That may be a difficult thing to say in front of a public setting like this, but we really needed to, in my mind, especially without a board,

19

20

21

22

23

24

25

take what has been a part of the community and try to capture it and gather.

The other thing that I know that is a part of my responsibility is to regain local control as quickly as possible. So in one form or fashion, as you have this discussion -- obviously, if you regain local control I guess there's a check of one of the tasks that are at hand. I know in my own eyes that the most important thing for me was to try to work with I also don't want to take credit for the schools. what happened at Fair and McClellan, because really Fair and McClellan -- when you look at the way that our system is set up, that's three years worth of data and data that I wasn't even a part of. data that was done on the work of teachers at both McClellan and Fair, and it's work done by community, and it was also work done by parents to change the reality there.

I also want to be real. And I hope this has come out in previous presentations that if you look at the schools that are remaining Henderson Middle School is probably the one that's closest on the cusp of getting to a place where it's the next one logically, using mathematics, to say they've got a legitimate shot with all the great things going on to

move forward. And Cloverdale and Hall's data is more challenging in terms of, you know, whether they would get over that 50% benchmark.

So I say those things as kind of the realities. I will tell you that it is a challenge on my daily walk with all the different trust factors that occur within this community. I got a text today that there was an individual that got up at Hall High to share that we're not going to move forward on the high school, that we're going to go move it to a new property. Wild zinger things that get thrown out on a continual basis, that's a challenge. And, you know, I guess the most important thing is having folks and trying to empower voices. I will share -- a board oftentimes does take on that role, and that is a true statement.

So to maybe wrap up my comments, I feel like, you know, we battle over each other oftentimes, in my observations of now having my feet as a part of all of you -- not just my vision from, you know, two-and-a-half hours away, but having my feet here with all of you -- that when you look at this we battle things out in terms of adult issues, and oftentimes we forget about what it is that we're going to go do for kids. And that's what I feel like I have the most

25

control over is trying to make sure I do everything I possibly can in terms of kid issues, day in and day out, to make our district better tomorrow and make our district better for the future. Thank you.

MR. BLACK: Why is it necessary to close three black schools in our neighborhoods?

SUPT. POORE: The -- and I'm going to -- you know -- that whole question has played itself out in terms of responses that might warrant an hour, but I'm going to provide a very quick synopsis.

In our school district we have -- first off, there was studies that had been done about the loss of desegregation funds, \$37 million being taken out. It really equates out to \$41 million. The next year will be the last time a payment will come into the district; it has to be used for capital projects. Prior to this school year and up into this school year over \$30 million has been reduced in the Little Rock School District budget. The task at hand for this coming year was to reduce the budget by \$11 There are a variety of different community million. meetings that shared options and, yeah, we received feedback in terms of things that could be looked at. When you look at the reduction and closing of schools, we have over 2100 vacant elementary seats.

If you go look at adding portables into the equation, now that number jumps up to 4300. The density of schools in terms of proximity of where everything is, in terms of the schools that were looked at for closure, Franklin is basically a mile away from Stephens. If you look at Wilson Elementary, there are four elementary schools that are in close proximity to Wilson. So even with the closures of 1,000 seats, which is more or less the capacity levels of Franklin and Wilson, although they were not operating at full capacity, especially Franklin, you still have in theory 3,000 available seats, if you count the portables, and over 1,000 seats still available at -- without the portables.

Another important point is when you make budget decisions it's what else would you have cut if you don't do this. And so if you don't make the reduction in terms of school closures, which netted over -- a little over \$3.5 million -- \$3.5 million that has to be gone forever; it's not just one year, it's gone forever. The other things that were on our list were things such as privatizing cafeteria employees, as well as custodial. That in my opinion would have had a bigger impact on our community because that would have taken out even more jobs in

terms of people that would have now been employed in a different service agency, potentially had different health insurance benefits, had different retirement benefits -- and to be honest, these are employees that are really doing great work. You know, our facilities and some of the challenges we have there, it's not because of poor employees; it's because of poor decision-making in terms of deployment of resources, where in 19 -- excuse me -- in 2014, we had \$347 million with the capital needs identified under the Fanning Howey study. That's accumulating; we've got to take care of that. It's not because of the employees. So I did not want to cut those folks if I didn't have to, and that's why we chose to do the school closures.

I hope that is helpful, Mr. Black.

MR. BLACK: A little bit, not a lot. You know, when a community --

CHAIRPERSON REITH: Oh, Mr. Black, if you could speak into your mic. That's all. Thank you.

MR. BLACK: When a community's schools close it automatically puts them on a different economic level -- usually the case. Do you agree with that?

SUPT. POORE: I think that it can. I don't think that it's going to happen in this case, and the

reason is the proximity of Franklin and Stephens, the proximity of the other schools, with Wilson, the proximity -- the idea that -- I think the other key thing is how we repurpose those building to keep vitality in the neighborhood.

MR. BLACK: That's where my concern is. Why all three closures in a predominantly black community and what will become of those communities afterwards?

SUPT. POORE: Well, and the part of what comes after, those are things we've worked on even this week in terms of community meetings. Again, we promised the community that we would come to them with proposals to share what we could do to repurpose and allow input to come in. We've held meetings, at Woodruff on Tuesday night and Franklin last night, and now we'll use advisory members that are a part of the neighborhood associations to kind of sort through the information that was provided us.

MR. BLACK: It is difficult to strategize economic development when you destroy one of the major tools for development. I can look at schools where we've closed schools -- and forgive me, I can't recall their names -- can you think --

MS. ZOOK: Hughes?

MR. BLACK: Hughes is one.

MS. ZOOK: But that's not -- that was a -- okay,
the distance was different. It wasn't a different -it went to a different town.

MR. BLACK: Right. I know it but I can't say it right now; forgive me for that. I can think of three. And once they lose that economic driver they become mainly simply a surplus population. People begin moving away, things go to happening. I call it the newscast; if your town doesn't appear on those towns in each county, you're in trouble; you've got problems. You want your name to appear on the paper, on that -- when they give us regional reports. I just think we need to -- all three, that's just hard. It's very, very hard.

SUPT. POORE: And, Mr. Black, in response, you know, I've actually received criticism that I should've closed more schools and had that be a part of the other budget reductions that make up the \$11 million. Closing a school is not easy, and it shouldn't be easy. And the reality of the three schools, if you go look at -- we have a utilization chart that we provided our community through all of our processes and in every case the students are actually moving into a building that has a little bit higher facility rating, which was done by an outside

group -- again, the Fanning Howey study -- with the exception I think of one school where I believe it was either even or just maybe a little bit below on one of the things where Wilson students will go. The other thing that happened -- and this did not -- this was data that didn't occur until after the fact, but the students -- when we got the results back from the State, students are actually moving towards a school that's performing at a higher level academically in terms of what the test scores were last year.

MR. BLACK: Thank you.

CHAIRPERSON REITH: Thank you, Mr. Black. And thank you, Mr. Poore.

So I turn to my colleagues again. And some of you I know live in this district; this is your district as well. Is there something we can offer Little Rock today?

Yes, Dr. Hill.

DR. HILL: Just from a broad spectrum, looking at the future of taking the timeline, the shared goals of the community, the shared goals of the advisory board, the shared goals of the State Board -- and, you know, I think there is -- we're dealing with maybe philosophical decisions based on -- in trying to get this ball down the field, trying to get

1 this ball into the end-zone, you know, trying to move this forward. And, of course, I'm only seven months 2 into -- eight months into this situation and trying 3 to wrap my hands around this broad issue; I mean, 4 very complex. We're dealing with a lot of history, 5 you know. We're dealing with a lot of sensitive 6 7 issues, you know, a lot of things people don't want to talk about; you know, a lot of things people are 8 9 scared to talk about. But it is things that must be discussed in order to re-establish trust and overcome 10 I think those are two dynamics that we're 11 fear. dealing with right now, fear and trust, and for 12 13 various reasons. But I think from a strategic standpoint, you know, what can we do to come out is 14 15 that I think in listening to the community, you know, the advisory board, the business community -- I mean, 16 from Little Rock as a whole we have to establish 17 18 those goals in line with what the community -- we have to have common shared goals that we're trying to 19 work to and have a precise -- and articulate and 20 21 communicate that for everyone. And right now, we've 22 just been here for -- since August; I don't know if 23 that has happened, to say that we all know where 24 we're going, and I think there is vagueness all 25 across the board. And not saying that anybody is

right or wrong, I mean, in this situation; I just 1 think it's very complex. And so I think if we can 2 articulate exactly what that looks like -- I'm not 3 trying to be politically correct, not trying to, you 4 know, say, well -- it's come up with some concrete 5 goals that we know that we're working towards and 6 7 everybody is trying to push down the field to get us to the end zone, which touchdown for us is going to 8 9 be turn it over to -- back to community control. I think the devil is in the details, is how we could 10 decide to manifest that to transpire sooner than 11 12 later, if that says that. And then I know that the 13 superintendent is challenged, you know, in doing that in many ways; the advisory community board that we 14 15 have is challenged because they feel powerless, you 16 know, in moving things forward. But what are the shared goals that the Board, you know, said that, you 17 18 know -- are we doing what we said we were going to do when we took it over? Have those things been 19 transpiring? And this is really though the first 20 21 time we've had a major conversation since I've been 22 here, you know, and so I guess it's kind of been the 23 elephant in the room though, you know, and so it's 24 never come up. And, you know -- and so -- and we can't talk about it, you know, which makes it very 25

19

20

21

22

23

24

25

complex, you know, because I can't call and get history and say, "Well, tell me" -- you know, I can't do that. So I try to go back through the papers, you know, and try to regurgitate information and try to say -- you know -- but -- and I can get it from the community, but I don't know what was transpiring.

But I think, you know, as a team, you know, which we want our state to look like a team -- I mean, we want to be on the same page, moving in the same direction for everybody, from the common goal of better -- to best serve our students. Now I will say, you know, economic development is critical and I'm only referencing from trying to build community, you know, from my experience down the street on Martin Luther King Drive. So those things are very viable, but also as a leader too understanding that you have to make financial decisions that can sustain themselves in order to be able to keep operations going. And I -- and, you know, and I think those are the things that the community -- we have to understand as well because, you know, we can have the best intentions, you know, for this year to say this is the right thing to do, but if financially it doesn't sustain itself then we're going to be in fiscal distress, you know, from a nonstrategic

1	movement because we were maybe caught up into those
2	emotions at that particular time. But, I mean, but
3	that's you know, that's the catch that we're in
4	right now to try to come and say how can we move this
5	forward and have open discussions that allow us to
6	overcome our fear and our trust.
7	MS. ZOOK: So are you saying that the plans that
8	the principals and the superintendent and Dr. Wilde's
9	team have are working on and are clearly
10	articulated have not been communicated to the
11	community at-large?
12	DR. HILL: Well, I was saying I wasn't aware.
13	As we move I've had some discussion I'm just
14	saying does everybody feel comfortable with those?
15	Have the Board bought into those? I mean, that's
16	I guess that's what I was asking.
17	MS. ZOOK: Yes.
18	DR. HILL: You see what I'm saying? I mean
19	MS. ZOOK: Right. And that's the reports that
20	we get at the Academic Distress Committee.
21	DR. HILL: Right.
22	MS. ZOOK: Right.
23	DR. HILL: And which I was saying from those I
24	was not very aware
25	MS. ZOOK: Right.

1	DR. HILL: you know, in the past.
2	MS. ZOOK: Right. But it's possible that the
3	schools and the principals and the superintendent,
4	the teachers and the parents who come know these, but
5	maybe the community at-large doesn't know what the
6	goal is and what the end-game is.
7	DR. HILL: I know we were in Discipline
8	Committee this morning and I mean I heard the
9	Commissioner talk about making sure that there's a
10	communication plan, you know, as far as making sure
11	those things are articulated and how it comes out.
12	I'm not saying for sure or not, Ms. Zook. I'm just
13	saying when I'm thinking about how this manifests
14	itself here's some things I think we must be
15	conscious of as we, you know, continue to try to move
16	forward and make sure that everybody understands
17	what, you know
18	MS. ZOOK: Right.
19	DR. HILL: Like, for example, we set you know
20	some people still talk about academic distress.
21	MS. ZOOK: Right.
22	DR. HILL: Okay. Well, I mean, you brought up
23	some other things that maybe somebody didn't know
24	about when things happened. I never knew that.
25	MS. ZOOK: Right.

1	CHAIRPERSON REITH: Thank you, Mr. Hill. And I
2	think your analogy of a team on this is definitely
3	part of where I was hoping the conversation would go.
4	And maybe even one of the outcomes, again, as I'm
5	very outcome-oriented and wanting to be able to make
6	sure there are outcomes of this conversation. Maybe
7	it's also that there's additional conversations,
8	right, could be part of it. I don't think it should
9	be "it." I think we owe more to Little Rock at this
10	point than just more discussions but I think us being
11	committed to some discussion, even amongst ourselves,
12	to get to a place even noting what Dr. Barth said
13	of the frustration of this moment. This played out
14	today's meeting played out in the media. We
15	didn't get to play it out amongst ourselves.
16	DR. HILL: And that
17	CHAIRPERSON REITH: And that's so maybe
18	there's
19	DR. HILL: I guess my question, is that a work
20	session?
21	CHAIRPERSON REITH: And that may be. No,
22	exactly.
23	DR. HILL: We've had work sessions about
24	everything else. I mean, I'm just wondering
25	CHAIRPERSON REITH: And, again, I

DR. HILL: -- where we could have those discussions.

CHAIRPERSON REITH: But, no, that's -- and that's where I'm trying to get at some action. I think that could be. I think that's what your comments say to me that -- and Dr. Barth's comments. But, again, I would be seech us, I hope we can offer something else too, but I think that's also a starting point and duly noted.

Ms. Dean, did you -- I saw you pull your mic. I think I saw the Commissioner, as well. But, yes, Ms. Dean.

MS. DEAN: This is a -- it's a very personal matter for me, especially being a single mom with four kids in Little Rock School District. So the decisions we make affect me personally; they affect my children personally. Having grown up in Little Rock all my life, born and raised, born at Baptist Hospital, my family born and raised here in Little Rock -- and you speak of the Little Rock Nine that was at Central, but I have personal history with the desegregation because most people don't speak about Hall High when it was desegregated; my father was one of the first. He was of that first group, so that's something that our family we discuss and something

that we keep at the forefront of the struggle and the 1 history of Little Rock and all that he endured to be 2

one of the first to desegregate Little Rock.

And I do -- I do believe Little Rock School District, and any other school district, needs to be back in the hands of local control as soon as possible. However, I'd have to echo Ms. Zook in saying that I -- it concerns -- it would -- it concerns me that we don't give it -- that we don't relinquish control before it -- before we can give it not end up in a worse situation than they are. reminded me of when my youngest, Caleb, broke his Little Rock School District was in a very hurt arm. and damaged situation and the children were the ones that were suffering as a result of that. And he was three years old when he broke his arm, not by any fault; he was just playing and things happen. not putting blame on anyone because of what happened with Little Rock School District; there's so many different factors that go into that. But speaking to the trust and the mistrust and the distrust, when he was three years old he didn't understand what was going on. All he knew was that he was hurt and he had to have a cast. And because he was three he

how bones heal, the doctor said, "You cannot let him go out and play. Even though he's feeling better, he doesn't hurt anymore, you can't let him go out and play in the backyard by himself; I'm sorry. if he falls the wrong way, even though it's healing, because of -- the bones heal with an extra knot over that area that breaks, so it's even more susceptible to breaking worse if it breaks before that time, before that time for complete healing and complete restructure and strengthening." So as much as he didn't like me and he was upset with me, and as much as he screamed and hollered at the doctor's office, and as much as he sat at the window and it broke my heart -- he would sit at the window with his hands -his little cast on his arm and see his brothers and sisters out in the backyard playing. I couldn't let him go out and play until it was time and he had healed and was strong enough -- that bone was strong enough to withhold being without the cast. feel like the ADE is the cast for Little Rock School District and it's our responsibility, not as parents or being in control of them but being responsible for their wellbeing. Because this is -- it goes back to the children; it goes back to my four children.

want to make sure I'm doing everything I can to make sure my children get the best education they possibly can while they're in Little Rock School District.

So as unpopular as it may seem, and unfair, it's in the best interest, in my opinion, to make sure that we give Little Rock School District the best chance it possibly can to be as strong as possible so we can say, "Go for it." And that's exactly what I did with my child. I had to wait. It seemed like a long time but really, in the perspective of it now, it really wasn't such a long time; it just seemed like it at that point. But I didn't have to be afraid or I didn't have to -- I didn't have to restrict him in any way because I knew and I was confident that he was strong enough to play on his own. And I feel like that's what we need to do with Little Rock School District.

I want Little Rock School District to have local control, I want my school district to have local control, but I just want to make sure it's done in the right time.

CHAIRPERSON REITH: Commissioner? Or, no.

COMMISSIONER KEY: No.

CHAIRPERSON REITH: Ms. Newton.

MS. NEWTON: This is a very, very complex

situation. And I think that we all have kids first on our minds, you know, that everything that -- you know, as a teacher -- I keep going back to being a teacher. You know, everything that happened in my classroom was what was best for kids, and that's here also what is best for kids. And the very worst days that I ever had in a classroom was the days that I went in unprepared; I didn't have a plan, I didn't have a way of doing what I needed to do; I just did it off the cuff. When I did that, I messed up and it was not good for kids.

And I haven't had time to study it yet, and I hope to be able to spend time to study the Act 930, but from what I understand it's going to give us a methodical plan to do what we want to do and that's to give Little Rock back to the people. And if we do it any other way I think we will be doing kids a disservice. And, you know, Commissioner, you can speak more to the act, you know, things that I don't understand about it, but the way I understand is when it gets laid out and we get the rules and regs laid out there will be a way and it will be established. And, you know, that's what feels -- to a teacher, that's what feels good, to have a plan. And, you know, that's just -- you know -- I love how you said

that, Charisse; that was excellent. And that's -you know -- we want them to go back strong and ready
to go and ready to take off and ready to do great
things for the children of Little Rock, because they
deserve it. And so I want them to be strong, but I
want us to have a well thought-out way to do it when
it gets -- when it's time.

CHAIRPERSON REITH: Dr. Barth.

DR. BARTH: I've agreed with a lot that's been I do very much like the Act 930 planning process and I also like the fact -- and this is an area where I think I agree with Ms. Zook is that while we focus on academic distress -- and that was the grounds for the action -- we all know that -- and even in that conversation there was an awareness that the fiscal ties to the sustainability of high-quality education, and we know, as we've seen in other cases, it ties back to Standards for Accreditation. These are all tied together. And I like -- I very much like the planning process in Act 930 that takes all of those systems into account. And that's why, you know, I wanted -- I really wanted to allow the Act 930 process to play out and get those plans fully fleshed out, but also know that the district and its patrons, you know, did have some clarity about when

25

they could rightfully expect that they -- that local control would return. And I agree that we've got to be smart about this, but I think we also know in life there are no assurances, right, and we have to -there will be a moment where this board on this issue, like it has with other districts, takes a little bit of a risk. We know we want those risks to be as limited as possible, even though we need to be as smart as possible. But I think we have to recognize that ultimately we are going to have to take a little risk and trust that, as Representative Tucker articulated earlier, that democracy will work, that we will have a school board that comes into creation that is -- that works well, that has been trained, that all of those things take place. those were the things that I was thinking about in kind of starting this conversation. I do think that there does reach a point where State takeover really mars a district's ability to really take off, because I think that if a community does not feel that they have a voice it makes them -- it makes it really hard for them to take a chance and cast a vote. know that the vote on May 9th is just the first of a number of votes that the patrons of this district are going to have to be asked to take to be sure that it

does have fiscal vibrancy moving forward. Because we know the deseg dollars are going away and that's going to have some implications for the budget and we need as much community buy-in energy as we move towards that day. So I don't know that I disagree with everything, but -- much that's been said; I think we have slightly different perspectives; I think we are placing maybe slightly different values on things. But I think we really ultimately are going to have to make -- take a risk but do it in a safe and thoughtful and well planned way as possible.

CHAIRPERSON REITH: Thank you, Dr. Barth.

And I guess picking up there then: again, I don't want to leave this conversation without feeling like there's something next. And so I guess I want to offer maybe with maybe a little bit more articulation, because where your metaphor, Ms. Dean, definitely resonated with me, the one thing I would offer is I never heard in there anywhere that you distrusted the doctors or you distrusted that the cast would work. You believed in the medicine, you believed in the doctors, and you believed in what they told you. And I think we're in a place right now where the community doesn't trust the doctor, or there's elements of the community that don't trust

1	the doctor, or they don't trust the medicine or they
2	don't trust the process. And that doesn't undermine
3	what you've said. We want to get to a place I think
4	where everybody can trust the doctor and the process.
5	I don't disagree with what you said; I just
6	MS. DEAN: No, but my child distrusted
7	CHAIRPERSON REITH: Yeah.
8	MS. DEAN: the doctor. My child did not
9	didn't want to go to the doctor, didn't like going to
10	the doctor, didn't want to do anything the doctor
11	said. But because I was responsible for my child it
12	didn't matter that my child I tried to build that
13	trust as much as possible. But being the responsible
14	party, I had to be the one to trust what the doctor
15	said for him.
16	CHAIRPERSON REITH: And I guess with that then
17	that for me would equate the community with children
18	and I just wouldn't I think I wouldn't
19	MS. DEAN: And as I said
20	CHAIRPERSON REITH: I wouldn't
21	MS. DEAN: As I said
22	CHAIRPERSON REITH: And, again, I think that's
23	where and, again, it's a very strong metaphor. I
24	think what it does is it catapults the opportunity I
25	think that we have here moving forward.

2

3

22

23

24

25

And if I could offer too: again, I think if there's a way, Commissioner, where we could adapt this for Little Rock -- put this not in just Act 930 plain overall, general terms but adapt this for Little Rock and present or empower Mr. Poore to present this with the Citizen Advisory Board about what comes next so that -- I mean, this is a timeline format that they've been asking for; right? there's a way that this could be adapted along the realities of Little Rock, for at least some sort of level of conversation there, I think that's one piece Because I know -- I think the average constituent here is not necessarily listening to us; the folks that are listening to us right now are those that are getting paid to for different aspects or they're highly committed to the community. we're missing a lot of constituents with just our live-feed. And I think if there's a way where we can turn this into something that is relatable to the Little Rock community, I feel like this conversation with timelines, something tangible, is what they've been asking for and this may be able to be a framework for that.

And then the other thing I would offer, along with what Dr. Hill was saying, is y'all are still

2

stuck with me for a couple more months as chair, and so maybe there is an opportunity here for a work session or conversation. I would -- and that would be beyond my time, but I'd love to see at least whether it's a series of work sessions or one session at some point when the Little Rock Nine come to Arkansas. I think we have an opportunity here when they come back home to have a conversation with them and I think that that's important for us to know where we come from, ask those questions, be able to have that history, to benefit from their knowledge. I know I, with Ms. Chambers, had the privilege of meeting Terrence Roberts at a NASBE event in Kansas City, and even with the few minutes we exchanged I thought that was very helpful.

I could offer up what maybe another session of this might look like, not in an action agenda item but something in a session that doesn't add on.

Maybe we change the session plans for the rollout of my time as chair, right, to be able to continue this conversation, and that gives us more time too.

Because one of the things I think I would like to beseech -- as a community organizer, this is an opportunity for all of us to go into the schools, to go into the district, to maybe accompany Mr. Poore

here in the closeout here in a couple -- last couple of months, and maybe bring some more information to the table as we all try and get to a place. Because as Dr. Barth said, and even as the Commissioner said, there's times in this timeframe where this conversation will persist, right, and us being able to have some collegiality around this I think could only help the conversation. And right now we're all sort of working in silence because of the open meeting laws. Well, then let's work within that structure and maybe do something there to offer a commitment that we ourselves are going to do maybe a little additional on our part to be better informed, to contribute to where and when this issue continues to come up within this timeline and this new

MS. ZOOK: You know, I agree that a general idea of what needs to be done needs to be communicated. But I think the assumption, based on the things you're saying, is that if we turn it back over to local control that there -- all the trust would still be there. And we know based on history that that is not accurate. And as far as the Little Rock Nine, it wasn't local and democratic; it was -- fortunately, we had a President who at the time was willing to

send in federal troops so that those children could receive an education where they chose to go to school. So I think that to assume that there would be trust automatically with a local board or that the democratic process always from elected officials in fact makes things better, when we know that -- in the case of the Little Rock Nine, were it not for the President who intervened, the local was not taking care of the children like they needed to be taken care of.

CHAIRPERSON REITH: And that's where I think we can have that conversation about the context and the pendulum of history and things that we can learn from each other from those moments. But I couldn't actually agree with you more that one election is not going to change everything, but it's a process. And I think our commitment to that process is what we can offer.

So with that --

MS. ZOOK: So, Jay, were you wanting to have a discussion and so it's on there and at this point we can move to move on, or what is --

DR. BARTH: Yeah. I mean, I have no action item in terms of, you know, policy action. That was -- you know -- I think -- but I don't think that would

dissuade us from, as I think I heard Dr. Phil -- Dr. Hill inviting us to do -- Dr. Phil?

MS. ZOOK: Dr. Phil; that might be a compliment.

DR. BARTH: -- that we -- there is -- I mean, you know, a majority of this board was not here in 2015, and that there may be some time to -- an opportunity to gain better understanding. And also intersect that -- to pick up on Ms. Reith's point -- intersect that with the way that the rules of the game have changed under Act 930 and begin to intersect and pull those together. We're going to need a lot of education about Act 930 anyway, especially as we go through the rule process. But here is an -- here is a real live case of LRSD where we are going to need to see that -- this process played out in a way that really impacts a district.

MS. ZOOK: Okay. Then I move that we ask that Dr. Wilde and his group, along with Mr. Poore, make sure that the community is aware of what's going on in the schools and the plan there to get out of academic distress; make sure that's communicated. And that we have a work session that was thinking in terms of Little Rock School District, and I would even add Dollarway, about how this new act will impact the steps and the plans that they make at the

	193
1	time.
2	DR. HILL: I would just I'm sorry; was that a
3	motion?
4	CHAIRPERSON REITH: Sorry. It is. She framed
5	it as a motion, so we need a second or and then
6	discussion can pursue there or it could die for lack
7	of a second.
8	MS. NEWTON: I second.
9	CHAIRPERSON REITH: Okay. So motion made by Ms.
10	Zook, seconded by Ms. Newton.
11	Now discussion. Yes, Dr. Hill.
12	DR. HILL: Okay. Do you think and I'm just
13	asking a question. Do you think it's best that you
14	combine both Dollarway and Little Rock School
15	District in a work session or however that would be?
16	Because I think you might want to when you're
17	dealing with something like this you want to just
18	focus on one community and not try to combine them.
19	MS. ZOOK: No. And if I didn't articulate that
20	clearly, I was saying
21	DR. HILL: As long as they're not at the same
22	time
23	MS. ZOOK: Yes.
24	DR. HILL: is all
25	MS. ZOOK: Yeah. Doing this for Little Rock,

	194
1	but
2	DR. HILL: Right, right, right.
3	MS. ZOOK: but at the same time Dollarway
4	might like some clarity as well.
5	DR. HILL: Yeah, I just because if we're
6	going to do something, I think as we articulate
7	because each community is different.
8	MS. ZOOK: Yes, it is.
9	DR. HILL: And so you wouldn't want to brag
10	because somebody feels left out with this. And, I
11	mean, you know, it's kind of like cancer; you want to
12	be focused in on what, you know
13	MS. ZOOK: Well, and Dollarway right now is not
14	pressing in the same way because
15	DR. HILL: Right.
16	MS. ZOOK: they know what happened when we
17	turned them back too quickly and now they're willing
18	as a community to be more patient because they have
19	seen that other districts, given time, came out in
20	better shape.
21	DR. HILL: Right. No, I just that was my
22	MS. ZOOK: Okay. I agree.
23	CHAIRPERSON REITH: And correct me if I'm wrong,
24	Ms. Freno: at the end of the day I think work
25	sessions would be at the discretion of the Chair but

with consultation from the Board, is how we've sort of handled them. And that may be a Robert's Rules procedure there, but that is -- but that input, right, of both of them, and I couldn't agree more. And I think Dr. Barth lends itself to -- his comments lend itself to that as well that we have -- instead of thinking of Act 30 [sic] just as this generic change, to apply it to the real cases before us of the two --

DR. BARTH: Right.

CHAIRPERSON REITH: -- that are in our control and to use that opportunity to elucidate, not just for us, and to come to consensus, do some learning, do some sharing, but then to be able to offer for the public through that process, right, some more information about what it means for them.

COMMISSIONER KEY: I need to ask a question, and it may take me awhile to get there.

Since day-one, after the motion, Dr. Barth, you made the motion -- you came back with a motion for a Civic Advisory Committee. I'm getting to the issue of communication. That went on for a year or so, and I think --

DR. BARTH: That was actually not my motion.

COMMISSIONER KEY: Well, I mean, somebody --

	196
1	somebody had well, it was an idea.
2	MS. ZOOK: It was a compromise.
3	COMMISSIONER KEY: It was sorry, I wasn't
4	here then, so
5	DR. BARTH: Somebody pulled that out of my
6	motion to put it in the
7	COMMISSIONER KEY: Okay.
8	DR. BARTH: in the main motion. But that's
9	fine.
10	COMMISSIONER KEY: Okay. All right. So, all
11	right. So there was an element there where folks
12	were appointed. There was communication work with
13	the district, feedback to this board I believe on a
14	monthly basis. I know for awhile it was the desire
15	of this board and it was a monthly action item, where
16	if it wasn't the Civic Advisory Committee it was,
17	first, Dr. Suggs, then Mr. Kurrus. And I think when
18	Mr. Poore got here we were still on a monthly and
19	then we backed off to quarterly. At the same time we
20	had Dr. Wilde and his team coming and giving us
21	reports and in the second year we appointed the
22	Community Advisory Board, the official statutory
23	Community Advisory Board.
24	Mr. Poore, what's the attendance of the
25	Community Advisory Board meetings?

SUPT. POORE: Attendance at the Community

Advisory Board meeting -- it does meet once a month;

in fact, it's meeting this evening -- has been very

limited. I think probably the largest audience

might've been 20. The last meeting I believe we may

have had less than five citizens.

COMMISSIONER KEY: There have been meetings; Mr. Poore has had a number of meetings outside to address specific venues. The Civic Advisory Committee had a special committee on facilities, came back with recommendations that had consideration of school closures for a number of other facilities, not just the ones. So the recommendation from Mr. Poore and his team was very limited as compared to that report from that facilities committee and the work that they did. And they I understand did a lot of studies, and we have those reports on file.

So when we talk about communication I don't want the public to get the impression that there has not been communication, because there has been extensive communication and conversation over the last two years. There has been extensive work by members of the Arkansas Department of Education. We have put grant funds, we have put resources in Special Ed., we have put resources in discipline. We have put

25

resources in there and we have worked in the last several months with Mr. Poore to create these opportunities for best decisions that need to be made moving forward.

So we put this timeline together today -- and we can certainly put together a timeline that's specific to Little Rock. But my question is to you, Members of the Board: when you get asked about this, what's Is it that the Department is working your response? closely with the district in accordance to the statute to meet the demands and address the issues that caused the academic distress? Because if we're going to talk about a team y'all are part of that team too. And that communication has to -- it can't just be one way, because y'all are the ones that have the knowledge; you know where this stuff is in the board minutes and reports; you know where to send people to. And I haven't seen that happen. is, but I haven't seen evidence of it. I don't know that Mr. Poore has seen evidence of it. But there's a lot of information, a lot of ways to communicate, and I know he's out there on a regular basis. you know, to say that folks have been told no, you know, I would dispute that. I think folks have been listened to. Sometimes the answers aren't what they

1 want to hear, because we have to make tough choices. And the statute says that the Commissioner has to --2 y'all did this, the Board did this, granted the 3 Commissioner the authority to assume the day-to-day 4 decision-making operation. It didn't say that the 5 Commissioner was the board; it's the authority of the 6 7 board, and giving freedom -- whether it's to Jerry Guess at Pulaski County or John Hoy down in Helena-8 9 West Helena or Mr. Poore here in Little Rock, giving 10 them the freedom and the flexibility to create plans and move forward and engage with the communities. 11 12 worked in Pulaski County; it worked in Helena-West 13 You had people showing up for Community Helena. Advisory Board meetings. Those Community Advisory 14 15 Boards, once they were appointed, as the statute 16 says, to help prepare the district for return to local control. There has to be a two-way street 17 18 there. And so when we have these things in place and they're not being taken advantage of, because folks 19 20 would rather, you know, have another way of 21 communicating, you know -- and that's okay, that's 22 their right -- but when we have shown a track record 23 of successfully returning districts back to local 24 control -- at Pulaski County there were folks who 25 even wanted us to keep them another year or longer

and we said no, we're not going to do that. Y'all said no, we're not going to do that. So why would Little Rock be any different? Why would we want to keep them any longer than any other district that we've partnered with to create the opportunities to make them successful moving forward? That's what we're doing every day, every day. Every day, we've got somebody engaged in some form or fashion with some operation in Little Rock School District and it's because the needs are great and we're going to keep working to meet those needs.

So if you have ideas on how we can better communicate that, I'm open. If it's timelines, we'll do timelines. If it's -- you know -- when we go through this transitional planning process, when this law goes into effect, we can have work sessions. But we need your help too to talk positively about the things that are happening that Mr. Poore and his team are doing, because there are a lot of positive things that are happening. And we're going to keep working to make those -- to take those steps.

And, Dr. Hill, that's -- that issue of communication, it's real. I understand that. But we also need open ears, you know, open hearts, open minds, all those things. And, you know, they -- if

there is a sense that there's no trust, you know, that's something we have to work on. I understand that. But we can't stop the work that needs to happen while we're trying to build trust. That work has to keep going and we want to keep doing that.

And Mr. Poore -- my commitment to Mr. Poore and his team is that our team at ADE are going to keep moving that -- moving that ball down the field, Dr. Hill. Because I did, I gave him three things that I needed him to do. I needed him to correct the issues of academic distress so we could then get local control and create world class career opportunities for the students here in this district, and he is working diligently to make those opportunities happen for these kids. In the meantime, tough decisions have to continue to be made.

MS. ZOOK: And I think another thing too, is it behooves us as board members to learn what's going on. You know, I didn't know until the other day, but it was nobody's fault but my own, that Mr. Poore has been like taking the students that will be displaced -- or not displaced, but going to a new school to those new schools and letting them get acquainted with those kids, letting the staff get to know each other, letting the parents know where the kids are

going to go to school, and getting acquainted. 1 know, all of these things that are going on that 2 doesn't ever -- or does not ever get reported or gone 3 about, but we have to assume the responsibility. 4 When -- I had a lady on Facebook the other day, and I 5 just happened to be reading the comments, and she 6 7 said, "Well," you know, "what are the things that need repaired?" And I just wrote a note to her on 8 Facebook, saying, you know, "If you'll go to the ADE 9 10 website and look under it, you know, it tells you exactly the things" -- Little Rock School District 11 12 website, you know, referring. And then someone else 13 just, you know, did better than me; they just gave her a link to that place. But, you know, as board 14 15 members, when we intervene in a district we -- it's 16 not like, "Well, we intervened; now y'all take care of it." It's like we intervened, we're responsible. 17 18 We're not the board but we are responsible for keeping up-to-date, making sure that we communicate, 19 20 and getting feedback from ADE about what are you 21 doing, what are you -- you know -- and, of course, 22 those of us who are on the Academic Distress 23 Committee have a bit of an advantage because we hear 24 the reports from the principals. And when people 25 talk about a plan, then I'm going, "Well, you know,

2

3

4

5

6

7

8

9

10

11

12

25

the plan may be slightly different at Henderson than it is at Hall and that it was at J.A. Fair and what feeder elementaries come in." And both of the superintendents have said, you know, "We've discovered we've got issues at the feeder schools, you know, the ones coming in." They don't come to 7th grade on 7th grade reading level and then we just fall apart and, you know, send them backward. like the lady asked -- oh, I was trying to --Marvell-Elaine, I said, "How did the -- you got all your kids up-to-speed at the elementary level, and so how is that translated in 7th and 8th and 9th grade?" And she said, "Reading is like a muscle; if you don't keep practicing it it's going to begin to fall off." So, you know, these are all the things that these school people know, they understand it, and it behooves us to learn. And I have found all the principals that I've talked to and the superintendent very receptive, you know, and they love it if they know that we care about what's going on or hear what they're saying. So said -- well, sort of said that to echo what the Commissioner was saying. DR. HILL: Right. And I guess when I was

DR. HILL: Right. And I guess when I was speaking more of communication I was kind of referencing myself as a new board member to

	204
1	understand I talk to you
2	COMMISSIONER KEY: Yes.
3	DR. HILL: but I don't get to
4	CHAIRPERSON REITH: Yes.
5	DR. HILL: I don't know.
6	CHAIRPERSON REITH: No communication amongst us.
7	DR. HILL: But I will say this now, are y'all
8	familiar with Tom Joyner, the number one African
9	American disk jockey throughout the United States?
10	Now I think this is very interesting; it's a concept
11	that we can apply. Carnival Cruise Line could not
12	sell out African Americans to buy tickets on Carnival
13	Cruise Line through a generic marketing plan. Nobody
14	would buy. And they were spending money and money.
15	Why do why are we not getting people of color on
16	the cruise ship? And they said, you know, "We're
17	spending all this money and we're generically trying
18	to get people of color to come to the cruise ship."
19	And they said, "Well, have you tried Tom Joyner?"
20	Sold out in a moment's time, as soon as he went on
21	and said, "Hey, I'm going to take a cruise.
22	Everybody come."
23	I'm thinking sometime our format for
24	communication might be to address specifically to get
25	to communities that may feel disenfranchised from

information. I mean, that's what I was -- because sometimes, you know, I know some people maybe are not reading the information, some people don't go on the website to get the information, but everybody listens to the radio. I mean, you know --

COMMISSIONER KEY: Those are the specific suggestions that we -- that I was talking about -- DR. HILL: Right.

COMMISSIONER KEY: -- that we need. But I didn't get to my question; I was almost there.

And my question is to the motion: how specific do you want that timeline to be? Because that's a question that Dr. Wilde is going to come back and ask me, "Well, Commissioner, how specific --

MS. ZOOK: Well --

COMMISSIONER KEY: "-- do you want this?" So I need y'all to tell us how specific do you want this to be.

MS. ZOOK: -- my thinking -- and I'm just speaking for myself -- is that in light of the law that will be taking place, a general understanding of, you know, this happens and then this happens, like we're going to have two years of ACT Aspire and that will, you know, make a difference. It could do -- or do -- so it's how it's going to flow, but not

saying specifically by August this is going to happen and by October this is going to happen, because we don't know. We didn't vote six months out to take over somebody and we can't make a decision at this point six months out to return because we don't know. I mean, they may just zip through all of this and, you know, it'll be wonderful and miraculous, and it's November and we're going to go, "Go for it." But we don't know. We're just saying, "As you go through these steps you're getting closer to the goal of local control; everything is up to speed; the facilities plan is" -- you know, that kind of thing. But not a date-certain but a process, that's what my mind is thinking. Does that -- there's nobody back there; everybody is gone.

COMMISSIONER KEY: Ms. Barnes, is that something that's -- that you can communicate to the team, if this motion passes, to result in the product that the Board wants?

MS. BARNES: Commissioner, you can rest assured that viable members of the team are watching this board meeting. I will communicate with them, but I think they heard what's being said. And we will seek further clarification, but we will do whatever is necessary to meet the needs of the board members, to

1	meet the needs of the district, the students, and all				
2	others involved. So, yeah, they're listening.				
3	COMMISSIONER KEY: Okay.				
4	MS. BARNES: Dr. Wilde's office is listening.				
5	CHAIRPERSON REITH: And maybe what I can offer				
6	as well, Ms. Barnes, is, you know, for all of us, as				
7	you've heard, and for those of us that have				
8	referenced timeline, we're available to you and your				
9	team as well. And I think to the Commissioner's				
10	point of feeling like we're a presence not to be an				
11	obstacle or create more work but to be part of this				
12	process, we're available to you too as brainstorming				
13	occurs and helping and doing what Dr. Hill says,				
14	thinking about different constituency groups and what				
15	kind of markers would be relevant for them. But				
16	we're available to you all as well.				
17	MS. BARNES: Thank you, Madam Chair.				
18	CHAIRPERSON REITH: So with that, we'll take a				
19	vote on the motion. All in favor of the motion as				
20	made by Ms. Zook and seconded was it by Ms. Newton				
21	or Dr. Hill right now? Ms. Newton, seconded by Ms.				
22	Newton. All in favor?				
23	(UNANIMOUS CHORUS OF AYES)				
24	CHAIRPERSON REITH: Any opposed?				
25	Okay. Motion carries unanimously.				

	208
1	With that, we will take a 10-minute break and
2	reconvene at 4:05 for the final reporting section of
3	this agenda. Thank you.

CERTIFICATE

STATE OF ARKANSAS)
) ss
COUNTY OF SALINE)

I, SHARON K. HILL, CCR, a Certified Stenomask Reporter before whom the foregoing testimony was taken, do hereby certify that the same is a true and correct transcription of proceedings before the Arkansas State Board of Education, in Little Rock, Arkansas, on April 13, 2017, that the said testimony was reduced to typewritten form by me or under my direction and supervision; and that the foregoing pages constitute a true and correct transcription of all evidence heard and proceedings had in said matter.

I FURTHER CERTIFY that I am neither counsel for, related to, nor employed by any of the parties to the action in which this hearing was taken.

I FURTHER CERTIFY that I have no contract with any parties within this action that affects or has a substantial tendency to affect impartiality, that requires me to relinquish control of an original transcript or copies of the transcript before it is certified and delivered to the custodial agency, or that requires me to provide any service not made available to all parties to the action.

WITNESS, MY HAND AND SEAL, THIS DATE: April 25, 2017.

SHARON K. HILL, CCR
